2. Introduction

Mobile Quotes MAX is an application dedicated for tablets that enables to access stock quotes in real time from anywhere in the world, wherever Internet access is available. The program is intended for all investors who appreciate the convenience of fast, reliable access to information from the stock exchange.

In addition to quotes, the program provides the entire spectrum of analysis functions such as charts including any time range, intervals, chart types, and technical analysis indicators.

The program provides two customizable screens divided into panels.

Within the panels, the investor can open any number of tabs with charts and detailed information on the securities.

3. Minimum requirements

Mobile Quotes 3 MAX is designed for tablets running iOS and Android operating systems.

Below are the detailed requirements for individual systems.

iOS

iPad 2 or later

iPad Mini

Operating System: iOS 5.1.1 or later

Android

Resolution: 1024x768.

Processor: 2 x 1.2 GHz.

RAM: 1024 MB

Operating System: Android 2.3 (recommended 4.1+)

The program can open any number of charts with possible high ranges of presented data, therefore it is not possible to determine the recommended version since this depends directly on how the program is used.

In any case, the program requires Internet access, which enables to connect sockets (packet data or WLAN connection).

Users who use additional software for securing their mobile phones (antivirus suites) should pay attention so that software does not block the connection, according to the parameters described on website <http://serwery.statica.pl>

The application is designed for tablets only. There is a dedicated version for smartphones (Mobile Quotes 3).

4. Screens and panels

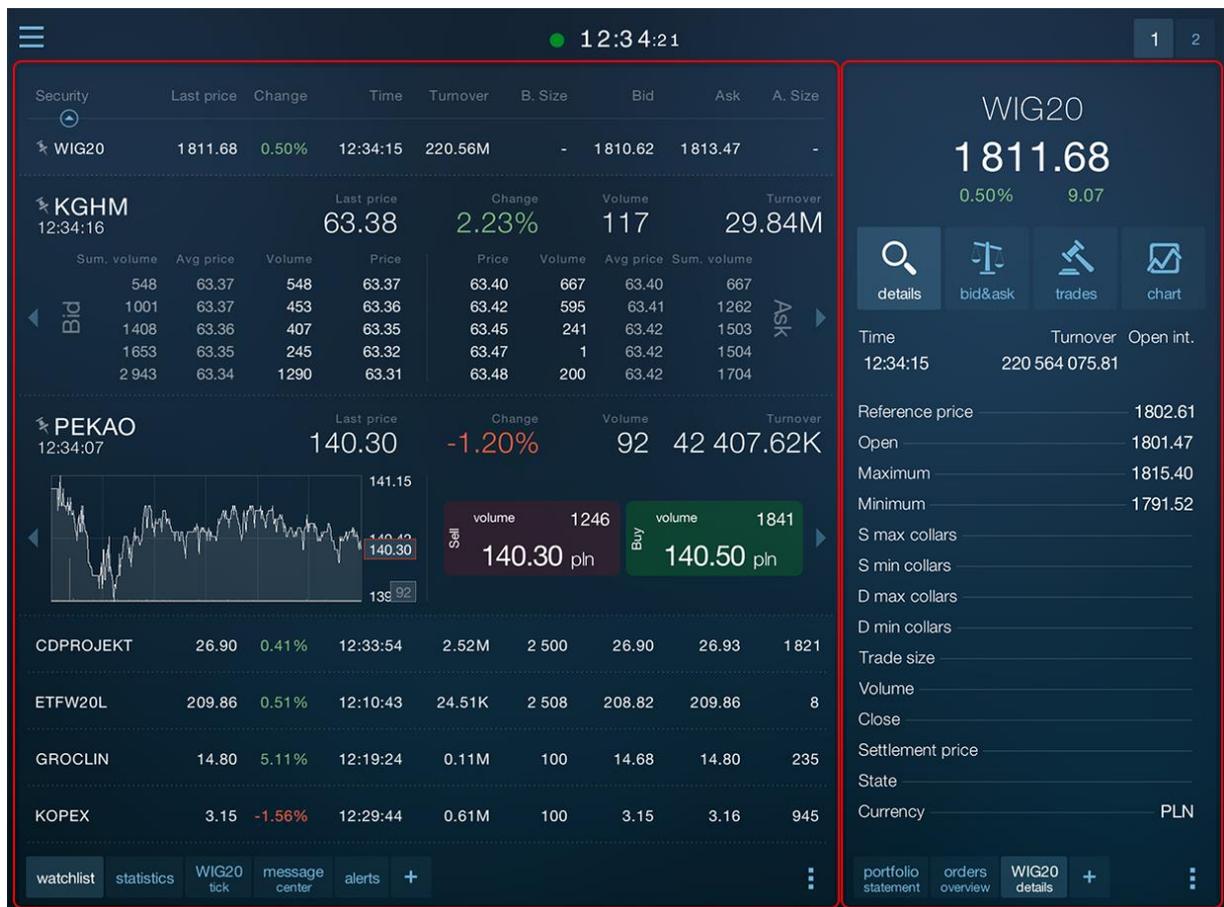

Screens and panels are the basic unit setting the arrangement of individual elements within the program.

There are two screens available in the program.

Changing the display is possible by pressing the screen icon.

The first screen is divided into two panes.

STATICA MOBILE QUOTES 3 MAX

You can place a watchlist, session statistics and any number of charts in the first, larger panel.

You can place the details of any number of securities in the second, smaller panel. Details include Bid&Ask, trades, details, and a chart.

The second screen is divided into four equal panes.

You can place charts only in these panels. There can be any number of tabs with charts within one panel.

5. Tabs

The tab is the primary interface element, which provides a separate functionality (table, statistics, chart,...).

You can open any number of tabs within each panel.

The tab which is active at any given time fills the entire panel. Tap on the tab header to change the tab.

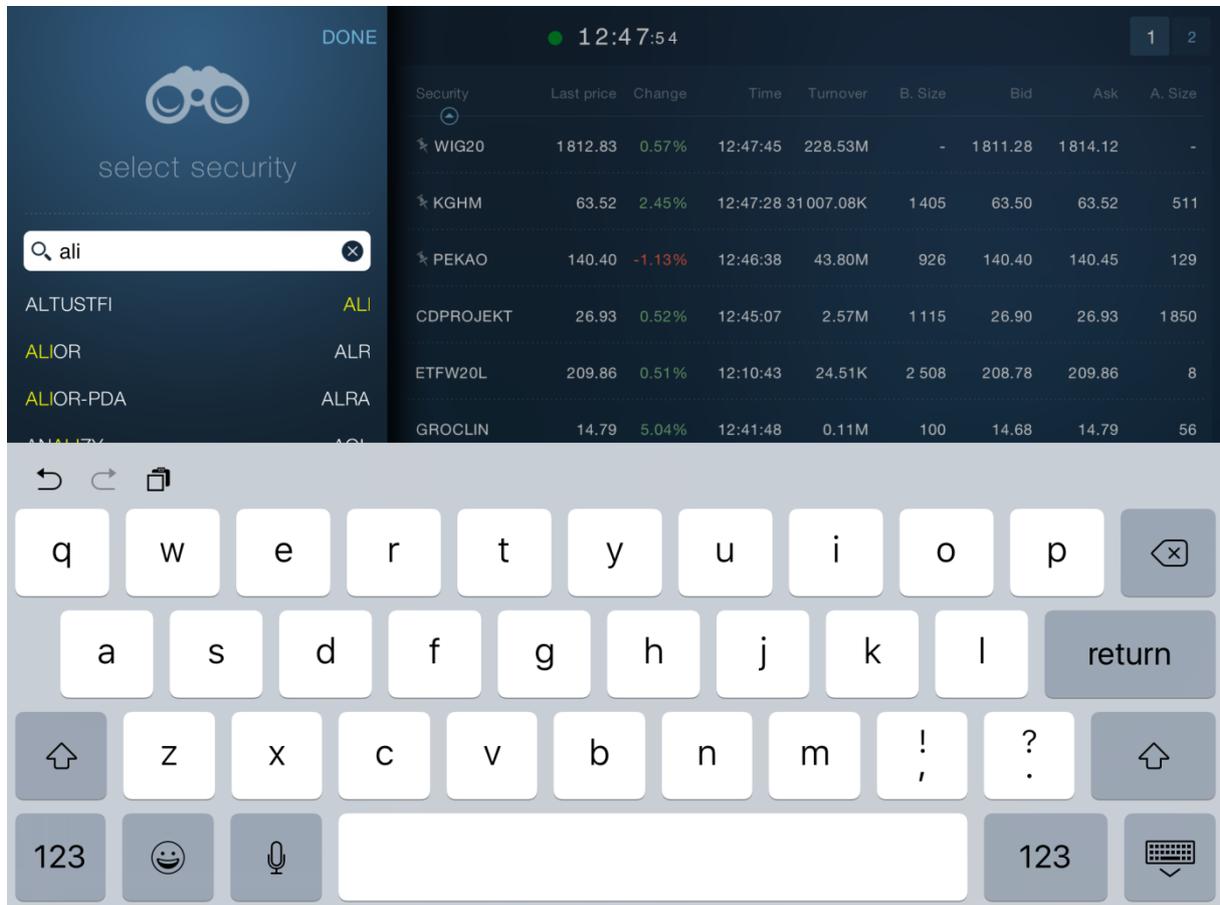

STATICA MOBILE QUOTES 3 MAX

5.1. Security selection window

The security selection window is used to select the security inserted into the table, or the security being the context of the single-security tab (details and diagram).

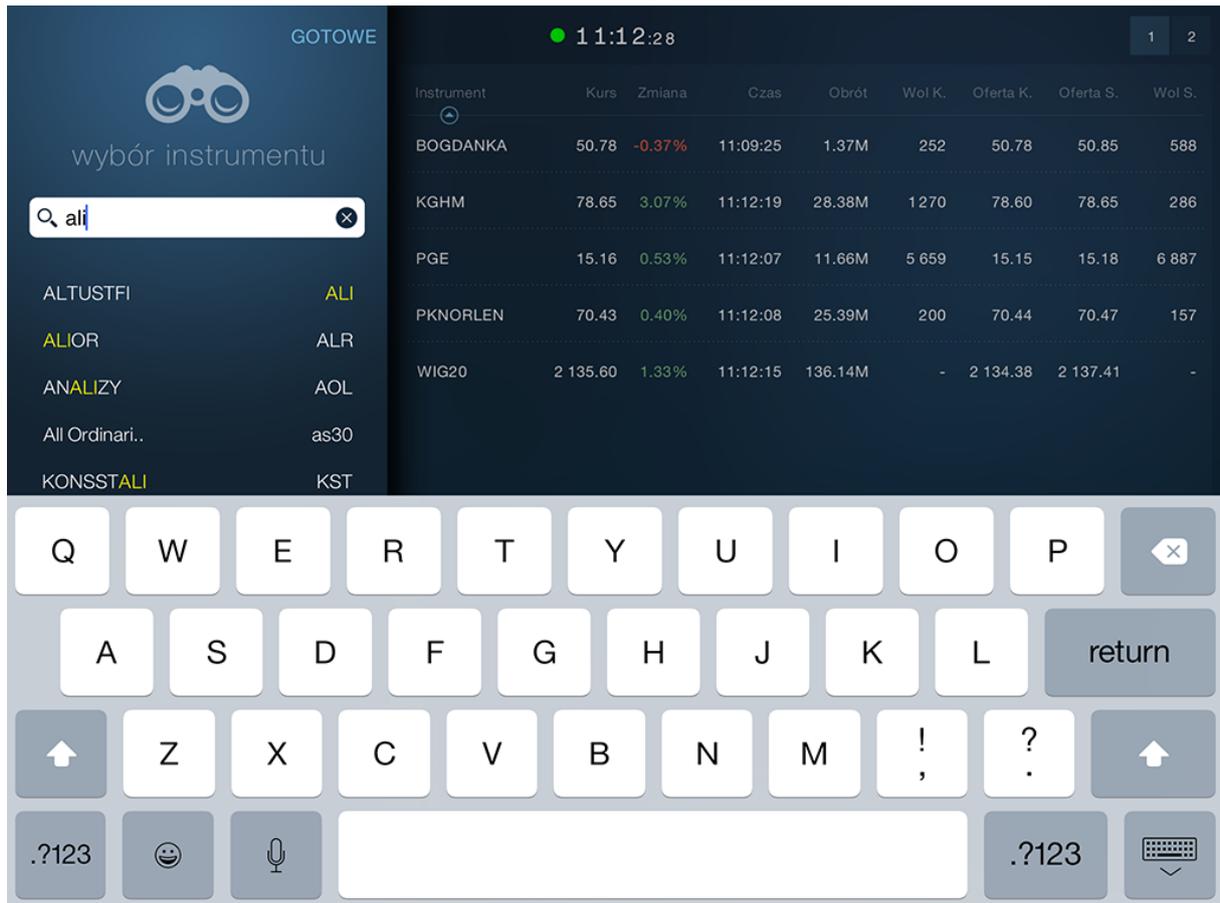

For details and charts the program automatically prompts securities, which the user may be interested in. In such a case, the list includes all securities used in any way in the program.

Tapping on the security name in the list inserts the security into the target tab.

The program also enables to search among all securities listed on a given day.

To do this, start typing the name or abbreviation of the security in the edit field at the top of the security selection window.

When typing the characters, the list of matching securities will be narrowed bit by bit.

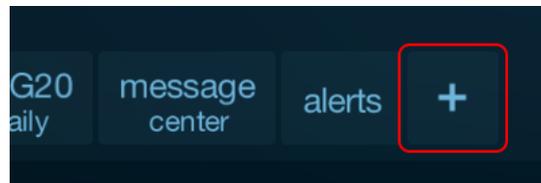

The selection of the security closes the window. The exception is the insertion of the security into the table. In such a case, you can insert multiple securities simultaneously. After entering and/or selecting one name, the program enables to enter the next one without having to re-open this window.

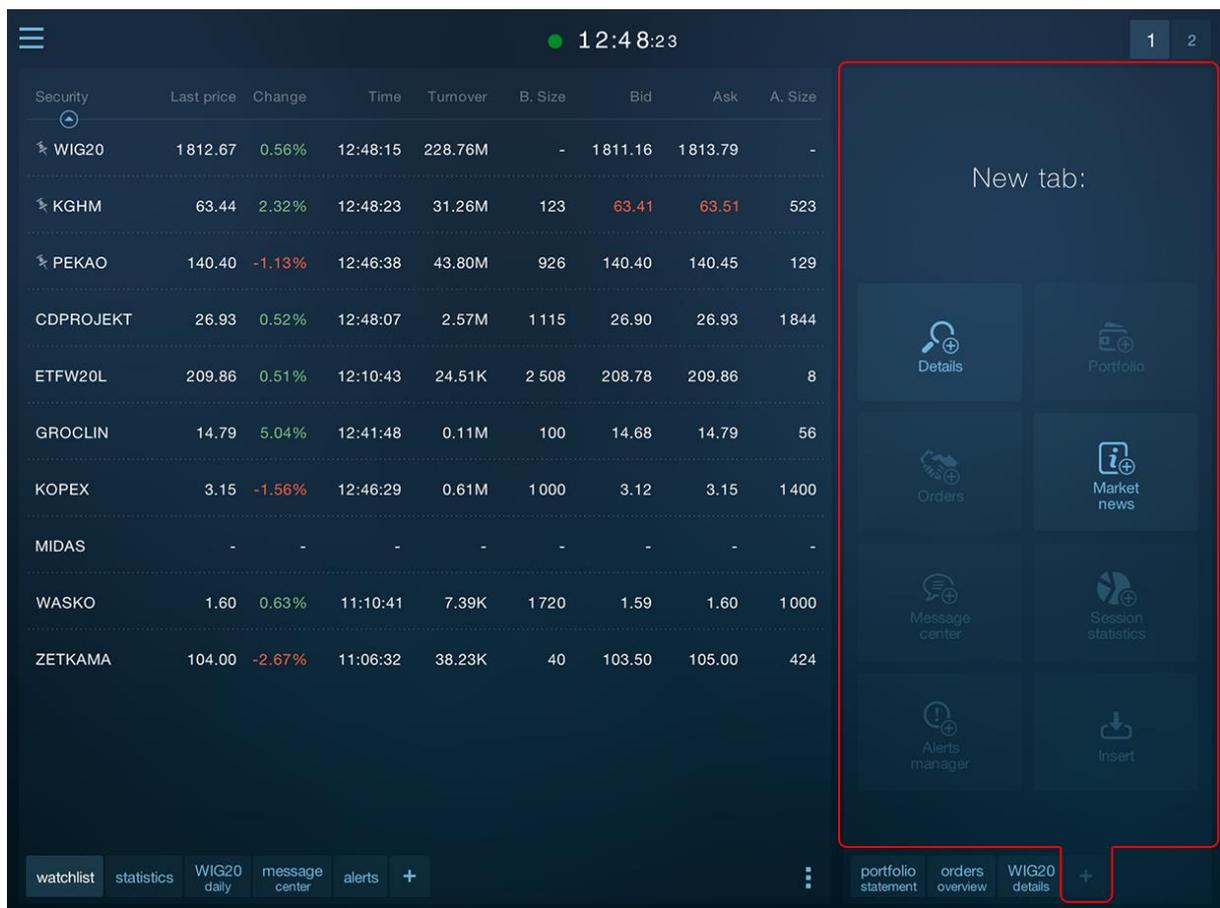

In such a case, the security selection window closes after pressing the “ready” buttons located in the upper right corner of the window.

5.2. Adding a new tab

If you want to open a new tab, press the “plus” button in the tab header in the panel where you want to place it.

The panel shows the tabs which you can place.

Some tab types may not be available because it is not possible to place them in the selected panel (e.g. you can insert charts only on the second screen).

Some tab types may not be available because they have already been placed and they can only be opened in one place.

If inserting a new tab requires the selecting the security for which it opens (chart, details), the program displays a security selection dialog before inserting a new tab.

5.3. Deleting a tab

To delete the tab, select “Delete” from the pop-up menu.

To call up the tab’s pop-up menu, hold the tab header for about two seconds.

5.4. Replacing the tab contents

The tabs displaying information related to one security (and thus the details and charts) enable to replace the security while keeping all settings of this tab.

To replace the security, display the tab's pop-up menu by pressing the pop-up menu button located in the lower right corner of each tab.

Then select “Change” (or “Change Security”) at the top of the menu.

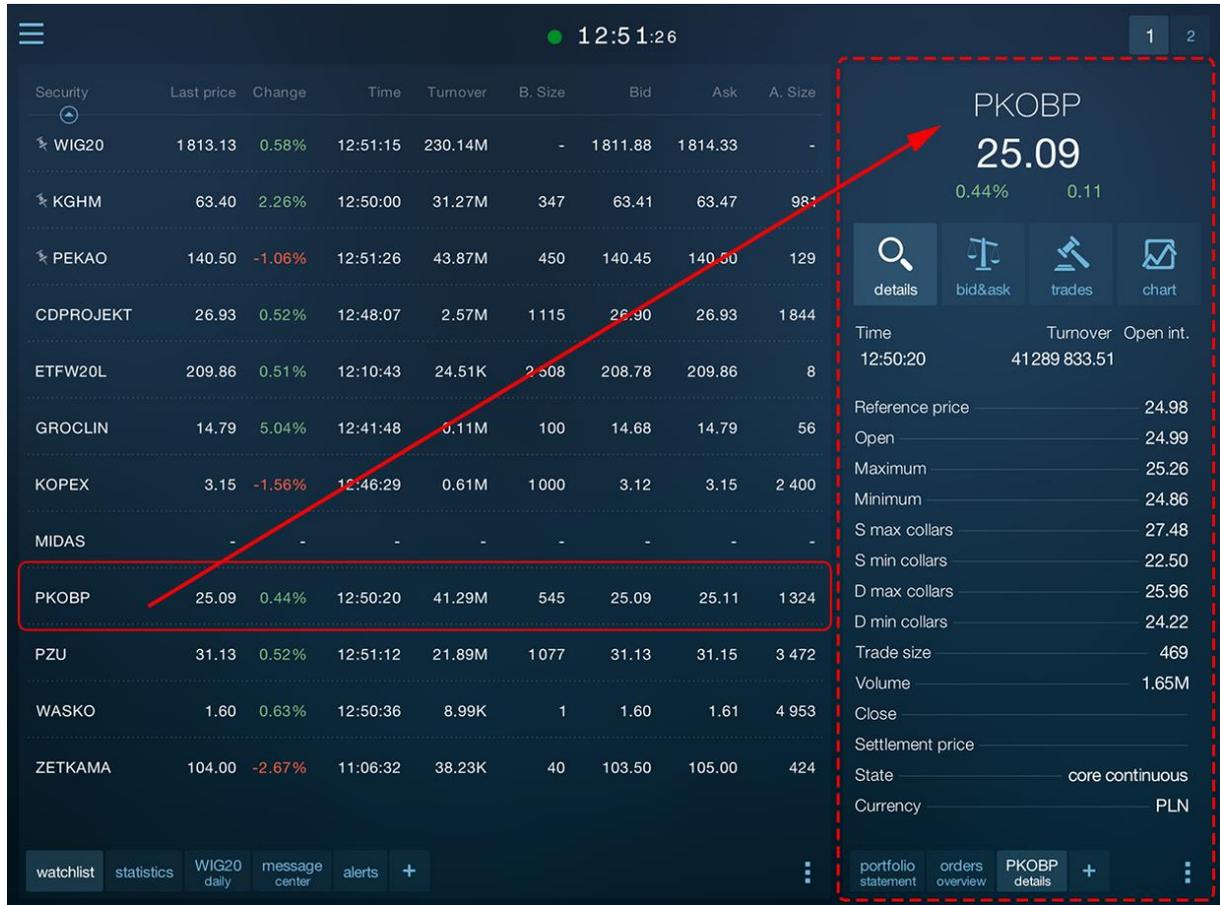

The security selection screen appears as a result of this operation. The contents of the tab will be changed after pointing to the new security.

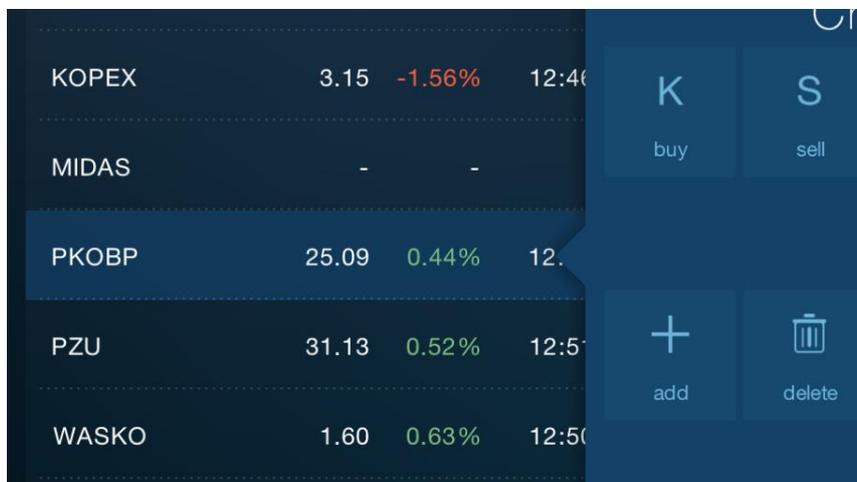

5.5. Populating the details tab from the watchlist

Quick replacement of the details tab content is possible from the watchlist.

In this way you can change only the contents of the tabs in the right pane on the first screen.

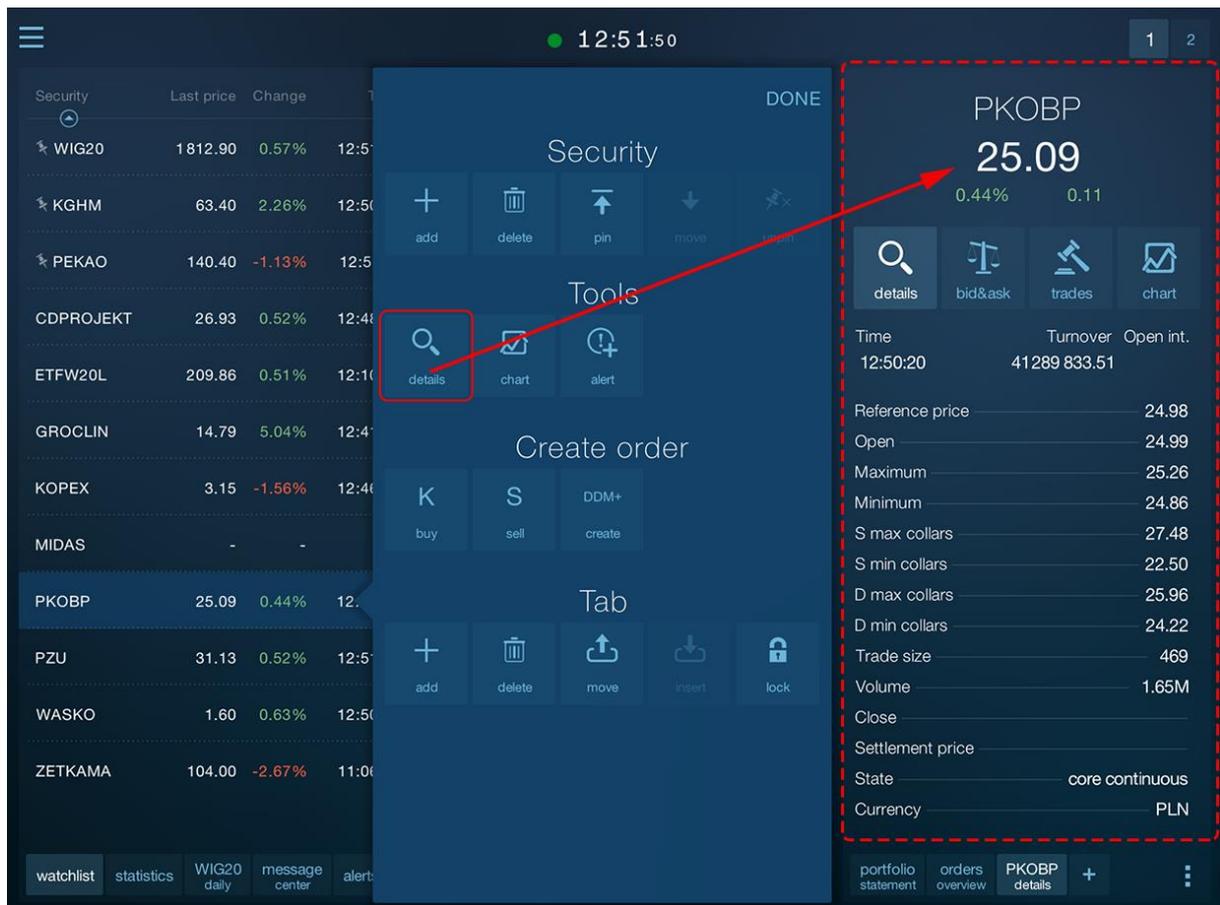

Display the pop-up menu of the watchlist . A small arrow at the left edge of the menu indicates the security on which you will be able to perform an operation (more on this in the chapter “Watchlist/Security context in the pop-up menu.”)

Tap the security in the table to change it. The arrow will move.

You can also open the table's pop-up menu right away indicating the selected security. For this purpose, do not press on the pop-up menu button to open the menu, but hold your finger on the selected security for about two seconds.

When the pop-up menu is open, and the arrow indicates the correct security, select one of the command from the "Go to the panel" group. When selected, the existing details tab in the panel next to the table will be replaced with the details of the security selected in the table.

If the details panel is not yet open, the program will open it automatically and will with the information of the selected security.

If the security has an expanded row, you can quickly fill in the details tab with the suitable type of information by tapping the expanded row briefly.

The screenshot displays a mobile trading interface with a dark theme. At the top, there is a menu icon, a green status indicator, and the time 12:53:46. Below this is a table of market quotes for various securities. The table has columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The securities listed include WIG20, PEKAO, CDPROJEKT, ETFW20L, GROCLIN, KOPEX, MIDAS, PKOBP, and PZU.

A detailed view for KGHM is shown below the table. It includes the following data:

KGHM		Last price	Change	Volume	Turnover
12:53:35		63.38	2.23%	103	31 608.02K
Reference price	62.00	Trade size	103	S max collars	69.13
Open	62.85	Volume	499 897	S min collars	56.57
Minimum	62.70	Open int.	-	D max collars	65.59
Maximum	63.59	Close	-	D min collars	61.17
State	core continuous	Settlement price	-	Currency	PLN

Below the detailed view, there are buttons for 'watchlist', 'statistics', 'WIG20 daily', 'message center', 'alerts', and '+'. At the bottom right, there are buttons for 'portfolio statement', 'orders overview', 'KGHM details', and '+'. A red dashed box highlights the KGHM details section, and a red arrow points from the 'details' button in the top right to the KGHM data.

5.6. Blocking the tabs content

If several tabs with security details are open, you may want to protect against accidental tab contents replacement (from the watchlist).

To do this, hold the tab header for about two seconds and then select “lock” from the tab header pop-up menu.

You will not be able replace the security in the tab after doing this, and the tab header will be marked with a padlock icon.

Press the “unlock” command in the same location to unlock the tab.

5.7. Moving tabs

You can move the tab both to a different panel (also between the screens) as well as within the same panel (to change the display order of tabs).

To move a tab, select “move” from the tab header pop-up menu (tap and hold the header for about two seconds), go to the destination panel and select “insert”.

You can select the “insert” command in two places: on the panel for adding a new tab and from the tab header pop-up menu. In the latter case, the tab will be moved in front of the tab from which the pop-up menu was called.

6. Watchlist

Watchlist is the main type of a tab in the program. You can open the watchlist on the first (left) panel of the first screen only. You can open one table only.

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1813.70	0.62%	12:56:30	232.16M	-	1812.66	1815.20	-

You can place the watched securities in the watchlist.

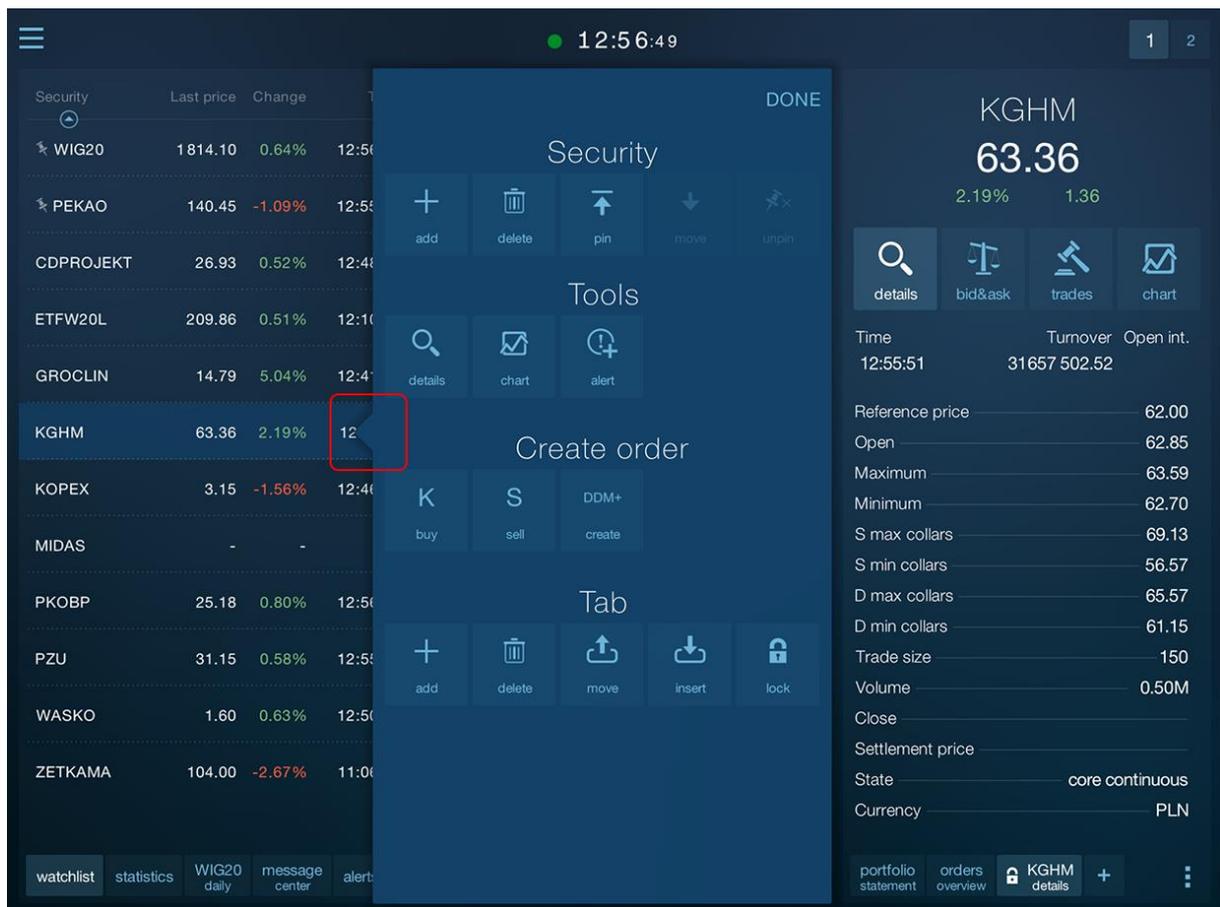

It includes a number of columns, the meaning of which is described in their headers.

6.1. Security context in the pop-up menu

In contrast to pop-up menus in other types of tabs, the menu of the watchlist works in the context of the selected security.

As a result, it is possible to remove and shift a specific security in the table as well as to complete the tab details from the table.

The security on which pop-up menu operations will be executed (if relevant to the security) is indicated by a small arrow next to the left edge of the menu.

Tap the security, which is subject to the operation in the table to change it. The arrow will move.

You can also open the table's pop-up menu right away indicating the selected security. For this purpose, do not press on the pop-up menu button to open the menu, but hold your finger on the selected security for about two seconds.

6.2. Expanded rows

By tapping the row for a security expands it so that the security gets an additional inner panel in the table that shows extended information. At the same time, the first row of the expanded security shows the changed information in an enlarged font.

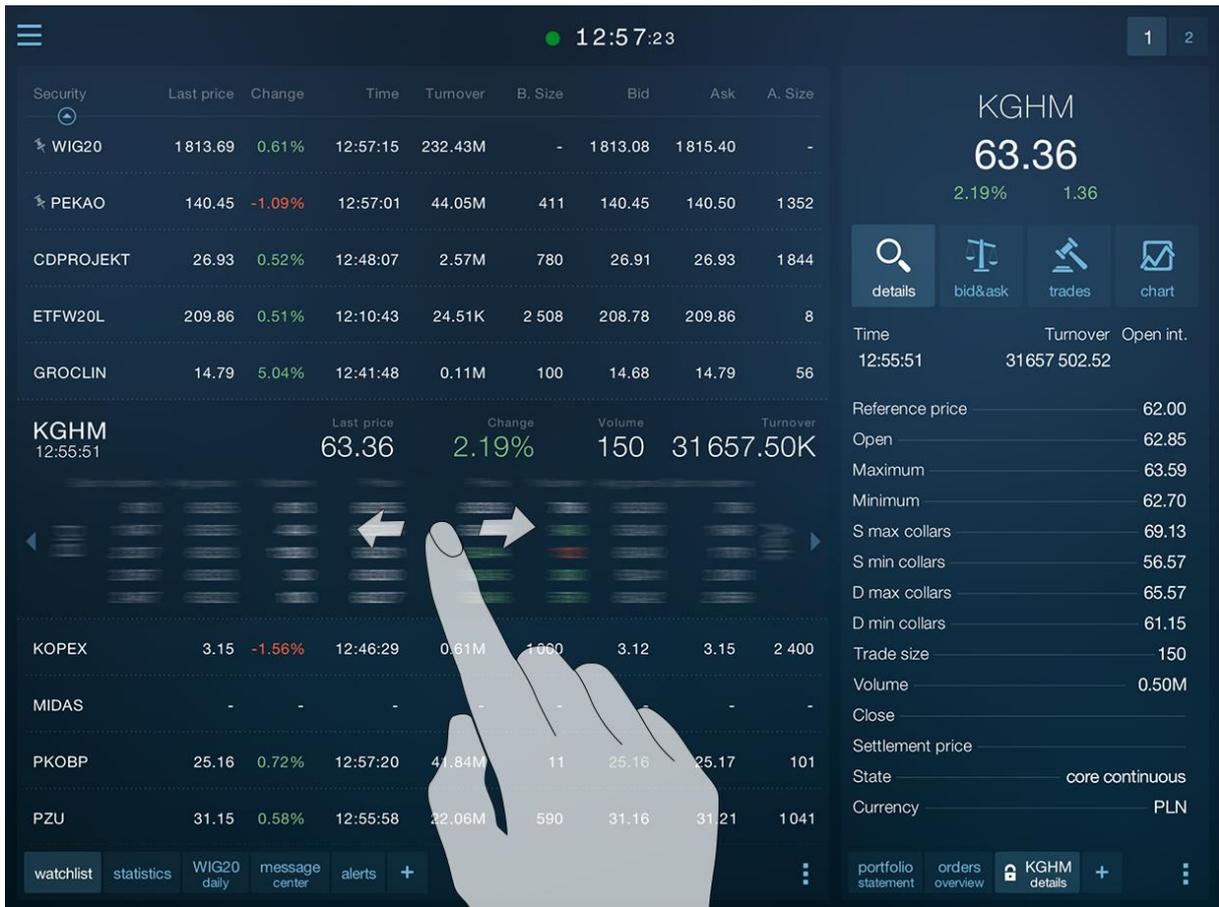

The screenshot displays a mobile trading interface. At the top, the time is 12:57:23. A list of securities is shown with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The security KGHM is highlighted, and its details are expanded in a separate panel.

Expanded KGHM Details:

Last price		Change		Volume		Turnover	
63.36		2.19%		150		31 657.50K	
Sum. volume	Avg price	Volume	Price	Price	Volume	Avg price	Sum. volume
613	63.35	613	63.35	63.39	706	63.39	706
1047	63.35	434	63.34	63.40	943	63.40	1649
2 337	63.33	1290	63.31	63.44	132	63.40	1781
2 367	63.33	30	63.30	63.45	300	63.41	2 081
2 467	63.32	100	63.27	63.46	578	63.42	2 659

The expanded view also includes a right-hand panel with various metrics for KGHM, such as Reference price (62.00), Open (62.85), Maximum (63.59), Minimum (62.70), S max collars (69.13), S min collars (56.57), D max collars (65.57), D min collars (61.15), Trade size (150), Volume (0.50M), Close, Settlement price, State (core continuous), and Currency (PLN).

You can scroll the expanded security row to the right and left using the scroll gesture.

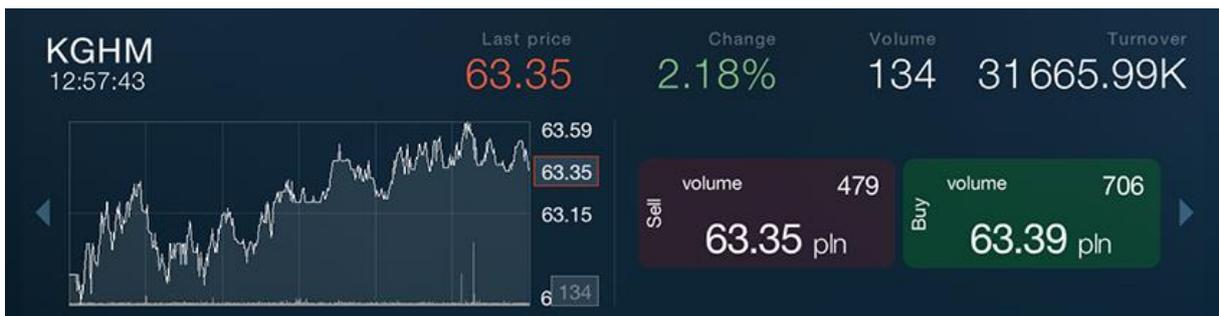

The following internal panels of the expanded security row are available.

Additional information

Chart and trades

Bid and Ask

KGHM		Last price		Change		Volume		Turnover	
12:55:51		63.36		2.19%		150		31 657.50K	
Sum. volume	Avg price	Volume	Price	Price	Volume	Avg price	Sum. volume		
613	63.35	613	63.35	63.39	706	63.39	706		
1047	63.35	434	63.34	63.40	943	63.40	1649		
2 337	63.33	1290	63.31	63.44	132	63.40	1781		
2 367	63.33	30	63.30	63.45	300	63.41	2 081		
2 467	63.32	100	63.27	63.46	578	63.42	2 659		

Each of the security internal panels has its counterpart in the security details tab. Briefly tapping the selected type of information (details, chart, trades, bids and asks) populates the details tab in the panel next to the table.

The screenshot shows a mobile trading application interface. At the top, there is a menu icon and the time 12:53:46. Below this is a table of securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The securities listed include WIG20, PEKAO, CDPROJEKT, ETFW20L, GROCLIN, KOPEX, MIDAS, PKOBP, and PZU. The 'KGHM' security is highlighted in the table. To the right of the table is a detailed view for KGHM, which is enclosed in a red dashed box. This panel shows the current price (63.38) and change (2.23%). Below this are icons for 'details', 'bid&ask', 'trades', and 'chart'. The 'bid&ask' icon is selected. Below the icons are various data points: Time (12:53:35), Turnover (31608 023.36), Reference price (62.00), Open (62.85), Maximum (63.59), Minimum (62.70), S max collars (69.13), S min collars (56.57), D max collars (65.59), D min collars (61.17), Trade size (103), Volume (0.50M), Close, Settlement price, State (core continuous), and Currency (PLN). A red arrow points from the 'bid&ask' icon to the 'KGHM' details panel. At the bottom of the screen, there is a navigation bar with icons for 'watchlist', 'statistics', 'WIG20 daily', 'message center', 'alerts', and a plus sign. On the right side of the navigation bar, there are icons for 'portfolio statement', 'orders overview', 'KGHM details', and a plus sign.

6.3. Sorting

Tap the column heading by which the table should be sorted to sort the table.

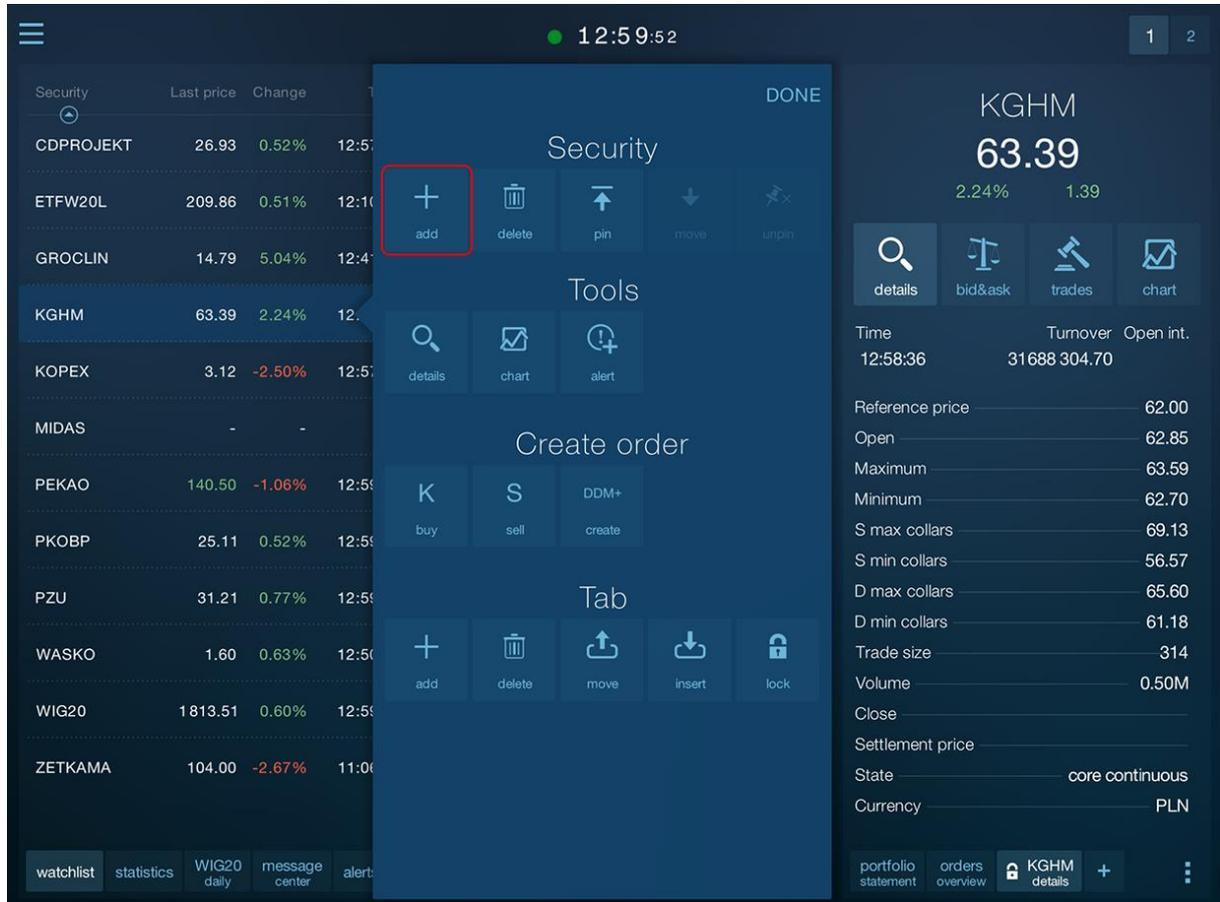

The column by which the table is sorted is marked accordingly.

Tapping on the column header again changes the sort direction.

6.4. Adding and removing securities

Press the table pop-up menu button (bottom right corner of the panel) to add a security to the table,  then select "Add" from the "Security" group.

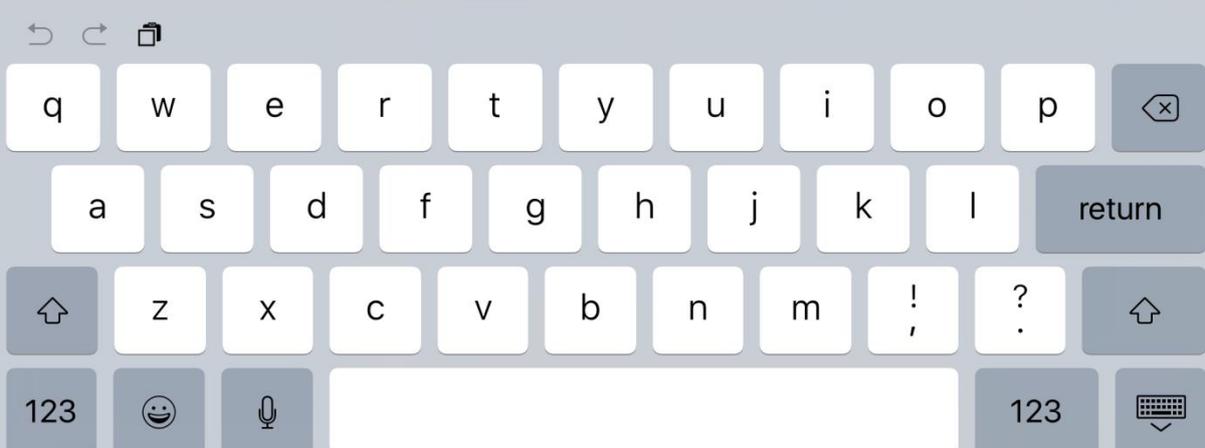

Security selection window will appear that enables to add one or more securities to the watchlist.

DONE
13:00:10

select security

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
CDPROJEKT	26.93	0.52%	12:57:50	2.57M	775	26.91	26.93	1657
ETFW20L	209.86	0.51%	12:10:43	24.51K	18	207.00	209.86	8
GROCLIN	14.79	5.04%	12:41:48	0.11M	100	14.68	14.70	53
KGHM	63.39	2.24%	12:58:36	31.69M	897	63.35	63.39	529
KOPEX	3.12	-2.50%	12:57:36	0.61M	656	3.11	3.14	500
MIDAS	-	-	-	-	-	-	-	-

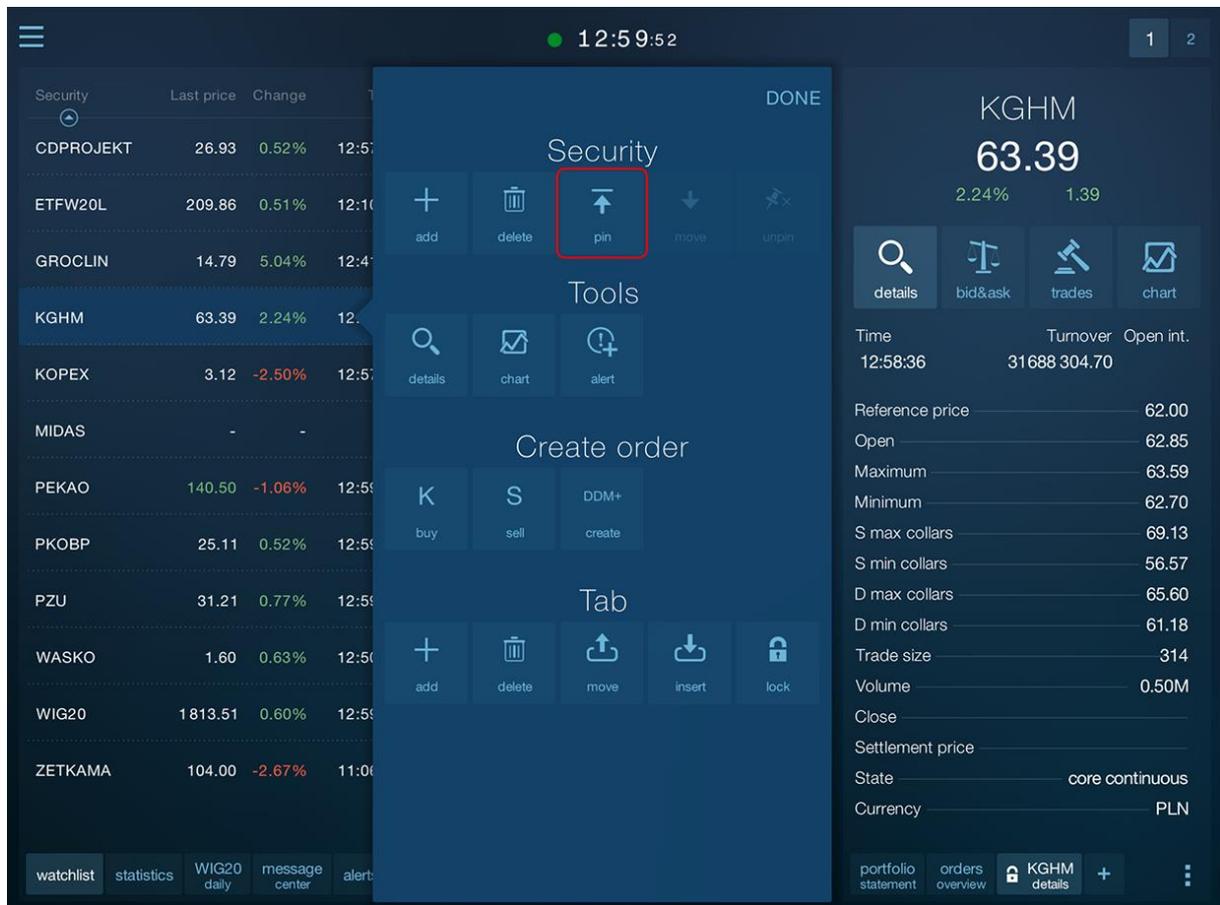

Hold the security row for two seconds, and then select “Delete” from the pop-up menu located in the “Security” group to remove the security from the table.

6.5. Moving securities

The program enables to move selected securities to the beginning of the watchlist.

To move the security to the beginning, select “pin” from the table’s pop-up menu.

The security will be moved to the beginning of the table and additionally marked with a pin icon.

The screenshot displays a mobile trading interface. At the top, a navigation bar shows a menu icon, a green status indicator with the time '13:01:38', and page numbers '1' and '2'. Below this is a table of securities. The table has columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The first four rows (WIG20, PZU, PKOBP, and KGHM) have a red box around the Security column, and the KGHM row also has a pin icon next to it. To the right of the table is a detailed view for KGHM, showing its current price of 63.39, a 2.24% change, and a turnover of 1.39. Below this are icons for details, bid&ask, trades, and chart. Further down are various market statistics like Reference price, Open, Maximum, Minimum, etc. At the bottom, there are navigation tabs for watchlist, statistics, WIG20 daily, message center, alerts, and a plus sign. On the right side of the bottom bar, there are tabs for portfolio statement, orders overview, and KGHM details.

To move the pinned security one item down, use the “move” command.

To restore the security to the position resulting from the sort order of the table, use the “unpin” button in the table’s pop-up menu.

7. Session statistics

Session statistics tab shows the current session status in an aggregated form.

Session statistics is updated approximately every 15 seconds.

Session statistics can only be opened on a large panel of the first screen.

Pie charts show, respectively:

- Percentage of stocks rising, falling, and unchanged
- Percentage of turnover for stocks, respectively, rising, falling and unchanged
- Percentage of the number of trades for stocks, respectively, rising, falling and unchanged

There is information shown above the pie charts about the number of stocks included in the statistics, turnover on the session, and the number of trades.

There are four panels below the pie charts section showing five stocks having, respectively:

- The biggest rises
- The biggest falls
- The biggest turnover

STATICA MOBILE QUOTES 3 MAX

- The largest number of trades

All presented information applies to the current session.

8. Details

Details include the tab type, which aggregates a lot of information on the selected security.

The screenshot displays the 'Details' view for the security KGHM. The main panel shows a list of securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The detailed view for KGHM shows a current price of 63.38, a change of 2.23%, and a bid/ask table. The bid/ask table is divided into 'Ask' and 'Bid' sections, each with columns for Avg price, Price, Vol., and Sum. vol.

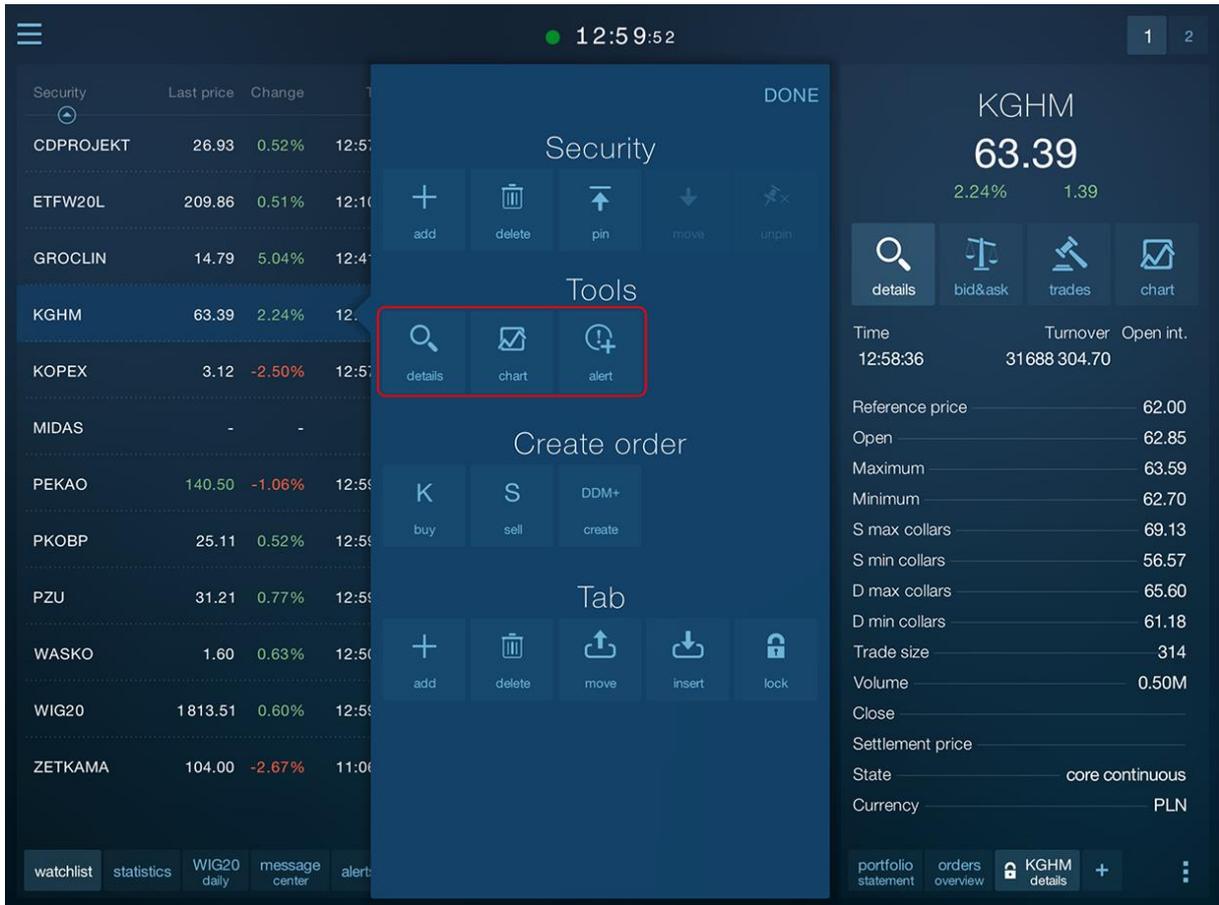

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size

63.35	63.32	200	1302
63.33	63.31	1290	2592

You can open the details in the vertical panel on the first screen only.

You can open any number of details tabs.

To open the existing details tab or fill it with information on the selected security, select "details" of the "Tools" group in the context menu of the watchlist.

You can change details sub-screens by pressing the sub-screen on the details tab.

The screenshot displays a mobile trading interface. On the left, a table lists various securities with their respective prices and changes. On the right, a detailed view for KGHM is shown, including its current price, percentage change, and various market statistics. A red box highlights the navigation icons for details, bid&ask, trades, and chart.

An alternative method of filling a details tab is tapping the expanded security panel in the table.

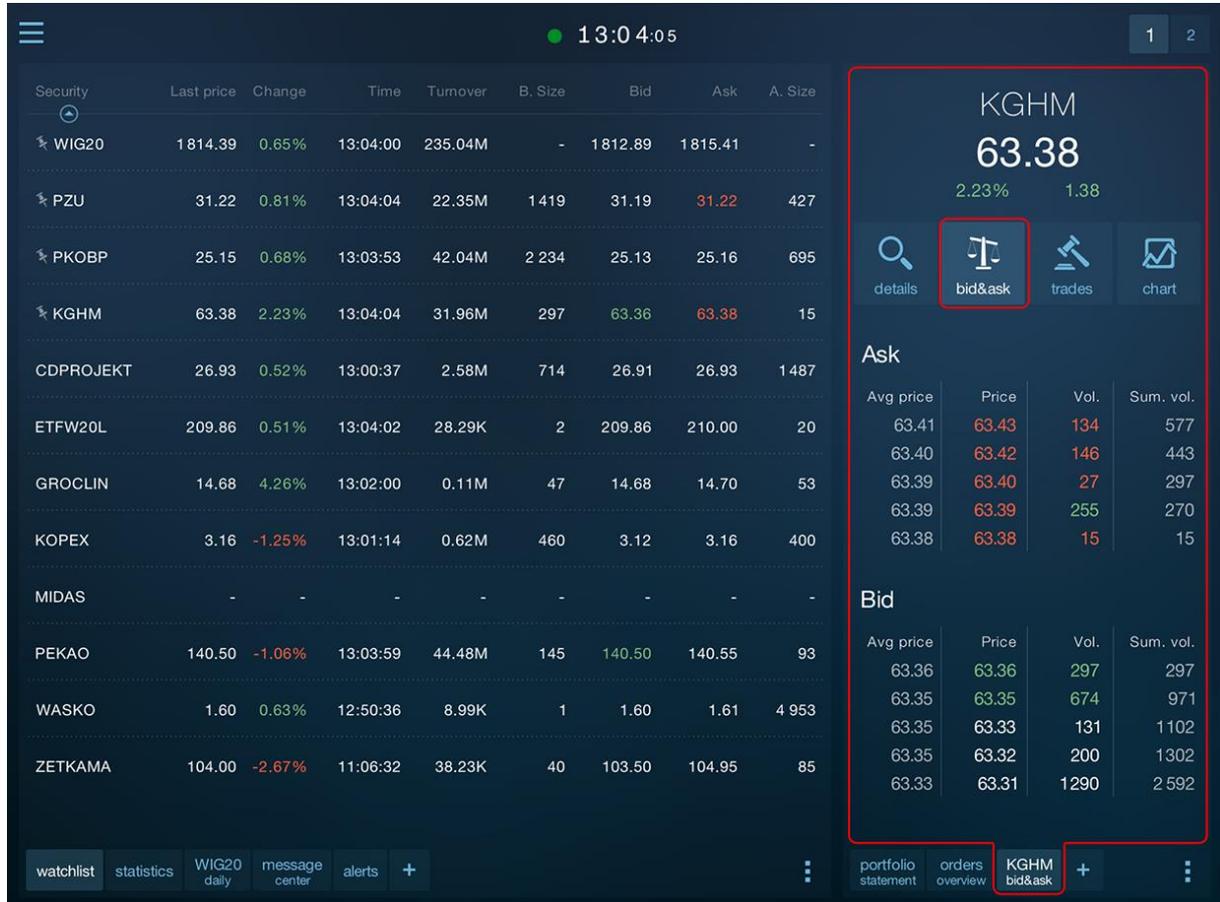

The upper part of each sub-screen in the details tab shows the same header with information on the current security price and its daily changes: percentage and points.

8.1. Bid&Ask

Bid&Ask sub-screen contains a view of Bid&Ask table where, depending on the user privileges, up to five Bid and Ask rows are shown for the selected security.

In addition to the price and volume of orders from a given Bid&Ask row, information about the average Bid price if you accept the Ask from a given Ask row is also shown. There is also information on the summary volume of Bid&Ask up to and including a given row, which contains information on the number of units of the security that you can buy or sell when deciding on the price of a particular row.

8.2. Details

Details include the view of detailed information about the selected security.

The screenshot displays a mobile trading application interface. At the top, the time is 12:59:17. A list of securities is shown with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The security KGHM is highlighted in the list. To the right, a detailed view for KGHM is shown, including its current price of 63.39, a change of 2.24%, and a turnover of 1.39. Below this, there are icons for details, bid&ask, trades, and chart. Further down, various market data points are listed, such as Time (12:58:36), Turnover (31688 304.70), Reference price (62.00), Open (62.85), Maximum (63.59), Minimum (62.70), S max collars (69.13), S min collars (56.57), D max collars (65.60), D min collars (61.18), Trade size (314), Volume (0.50M), Close, Settlement price, State (core continuous), and Currency (PLN). At the bottom, there are navigation buttons for watchlist, statistics, WIG20 daily, message center, alerts, portfolio statement, orders overview, and KGHM details.

8.3. Trades

The sub-screen contains the full list of trades executed on the selected security. The list contains information about the time and price and the volume of trades and the LOP value (if any).

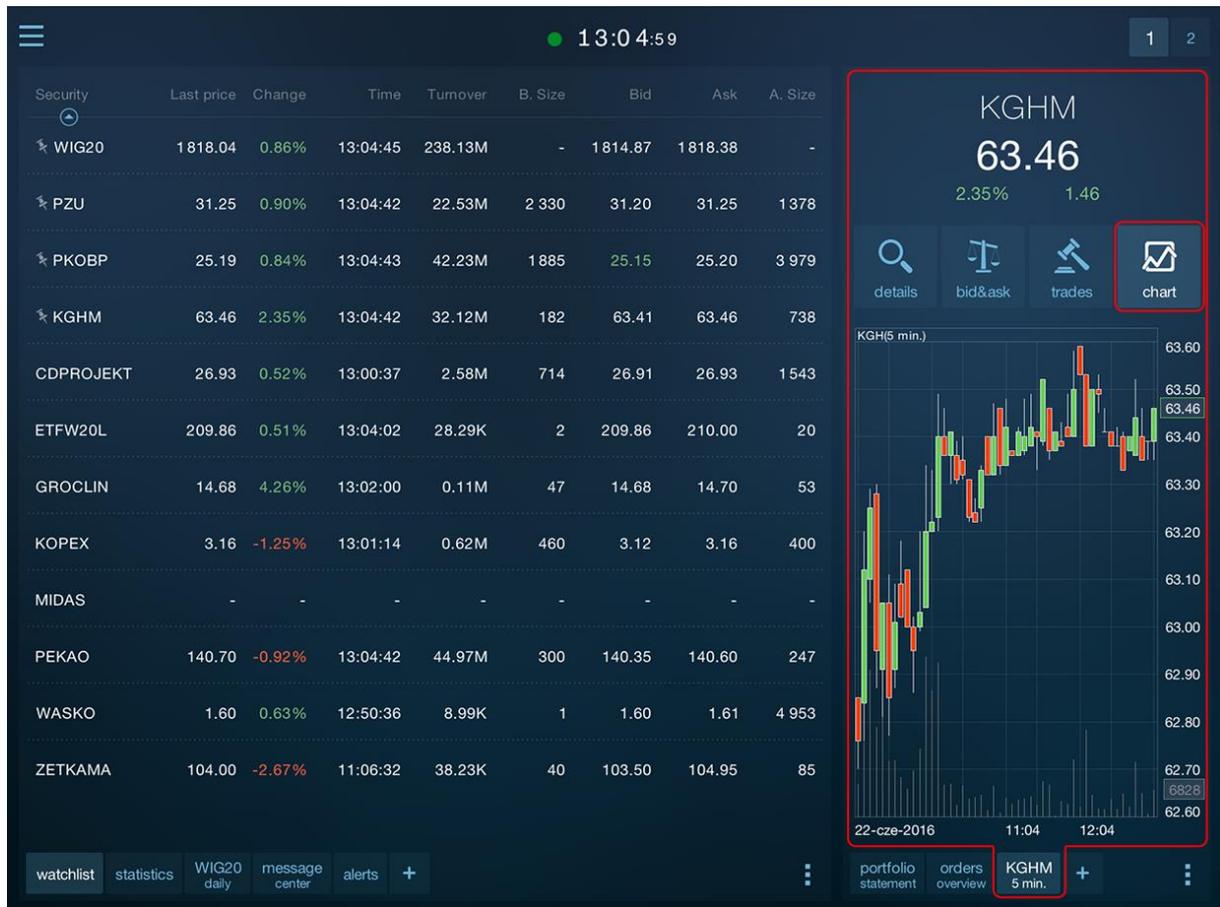

Changes in the trade price in relation to the price of the previous trades are colored in accordance with the direction of this change.

The screenshot displays a mobile trading application interface. At the top, the time is 13:04:20. A list of securities is shown with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The security KGHM is highlighted, and its details are shown in a pop-up window on the right. The KGHM details window shows the current price of 63.42, a change of 2.29%, and a volume of 1.42. Below this, there are four tabs: details, bid&ask, trades, and chart. The trades tab is selected, showing a list of trades with columns for Time, Price, and Vol. The trades list shows several trades at 13:04:04, with prices ranging from 63.38 to 63.42. The price changes are color-coded: green for an increase and red for a decrease. At the bottom of the screen, there are navigation buttons for watchlist, statistics, WIG20 daily, message center, alerts, and a plus sign. On the right side of the bottom bar, there are buttons for portfolio statement, orders overview, KGHM trades, and a plus sign.

8.4. Chart

Detailed charts description is shown in Charts chapter.

9. Charts

The application enables to open any number of chart tabs.

Charts can be opened on each panel available in the program, in particular the second one.

Formally charts are part of the details tab. However, in the case when the chart is placed in the panel which does not enable to open the details, the program displays a simplified view of such a tab limited to the chart only.

Moving a simplified details tab to the narrow panel of the first screen will convert it to a full version (which also shows security trading details, Bid&Ask, and the list of trades next to the chart).

Similarly, moving the details to the large panel of the first screen or to one of the panels of the second screen, will hide all details sub-screens and show the charts only.

The program provides access to the entire spectrum of tools and options for technical analysis of security trading on the charts. These are:

- **Adjustable time ranges for the presented data of any length**
- **Zooming and panning the range of data in the chart**
- **Fullscreen mode**
- **Four chart types (line, column, candlestick, and bar)**
- **Many available time intervals**
- **Daily data unlimited as to the scope of quotes**
- **Technical analysis indicators with the capability to adjust their parameters**

9.1. Chart settings

Chart settings include its type, interval, and the range of visible data.

To change one of these parameters, select “Chart settings” in the “Chart” group of the chart tab context menu.

Each chart tab provides independent settings.

To close the chart settings window, press the “READY” button or tap the screen outside of the settings window.

9.1.1. Type

The program enables to switch between chart types:

- Line
- Column
- Candlestick
- Bar

Candlestick and bar charts are only available for charts with the interval higher than a tick.

9.1.2. Interval

The program enables to switch aggregation data on the chart between the following intervals:

- Tick (each transaction)
- One minute
- Five minutes
- Ten minutes
- Fifteen minutes
- Twenty minutes
- Hours
- Days (EOD)

The interval change can automatically change the number of sessions presented at the default for a given interval.

9.1.3. Data range

You can change the data range shown in the chart using the commands in the “Data Range” group in the chart settings window.

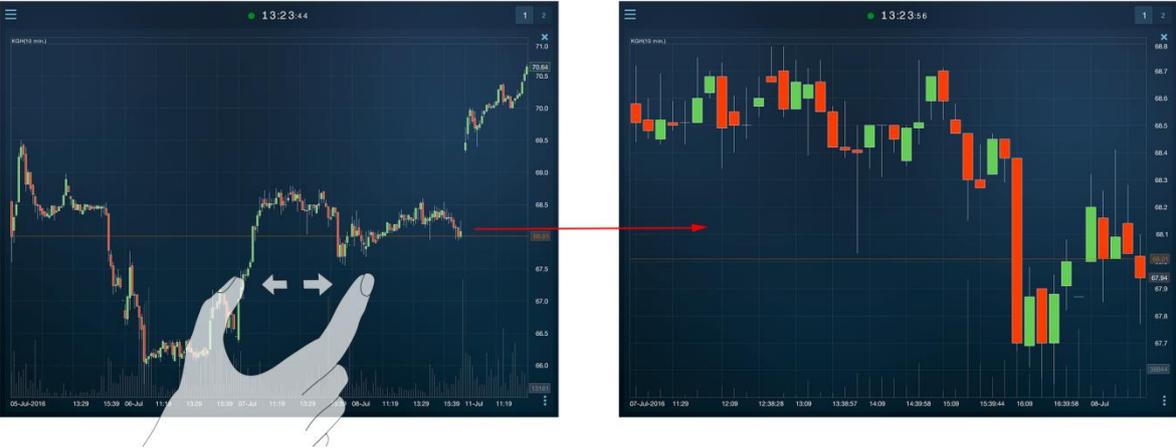

Available data ranges are:

- One day
- Three days
- Week
- Two weeks
- Month
- Three months
- Six months
- Year
- Two years
- Five years
- Maximum allowable for the selected interval type

9.2. Zooming

The application enables to zoom the chart.

Use the zoom gesture (move two fingers out to the sides) to zoom in on a chart.

You can move the visible range of data in an enlarged chart. To do this, slide your finger across the screen.

STATICA MOBILE QUOTES 3 MAX

Tap the chart twice quickly to restore the full range of data (cancel the zoom).

9.3. Fullscreen mode

You can temporarily enlarge each chart in the program to full screen.

To do this, select “Full screen” command in the chart context menu.

Selecting this command again restores the chart to the panel.

9.4. Technical analysis indicators

The program provides a variety of technical analysis indicators.

Some of them (averages, Bollinger band) are put in the prices panel.

Indicators whose interpretation logic is not directly linked to the price (they have a separate values axis) are shown in a separate inner panel of the chart.

In such a case, each indicator is shown in a separate inner panel of the chart.

The chart tab may contain a maximum of three internal indicator panels (but this does not limit the placement of indicators in the price panel).

9.4.1. Adding and removing

Select "indicators" command from the chart's pop-up menu to add an indicator.

The available list of indicators does not fit entirely on the screen. Therefore, you can scroll it up and down.

In addition to the management of visible indicators, you can also hide the volume and LOP (if available for the security) in the indicators window.

To activate the selected indicator, tap the switch icon located next to its name.

Indicator will be placed in the chart window immediately.

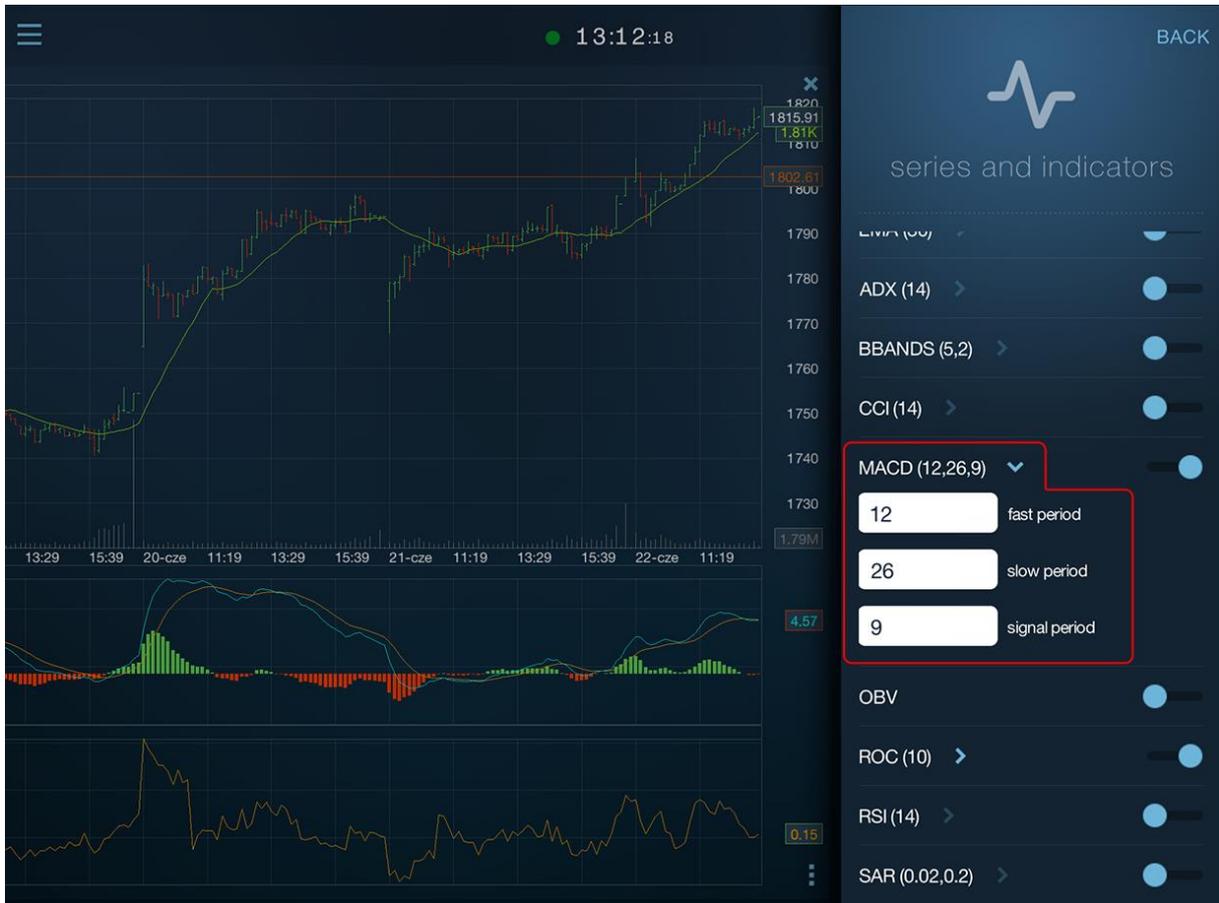

Tap the switch with the name of the indicator again to remove the indicator.

Close the "Series and indicators" window with the "BACK" button.

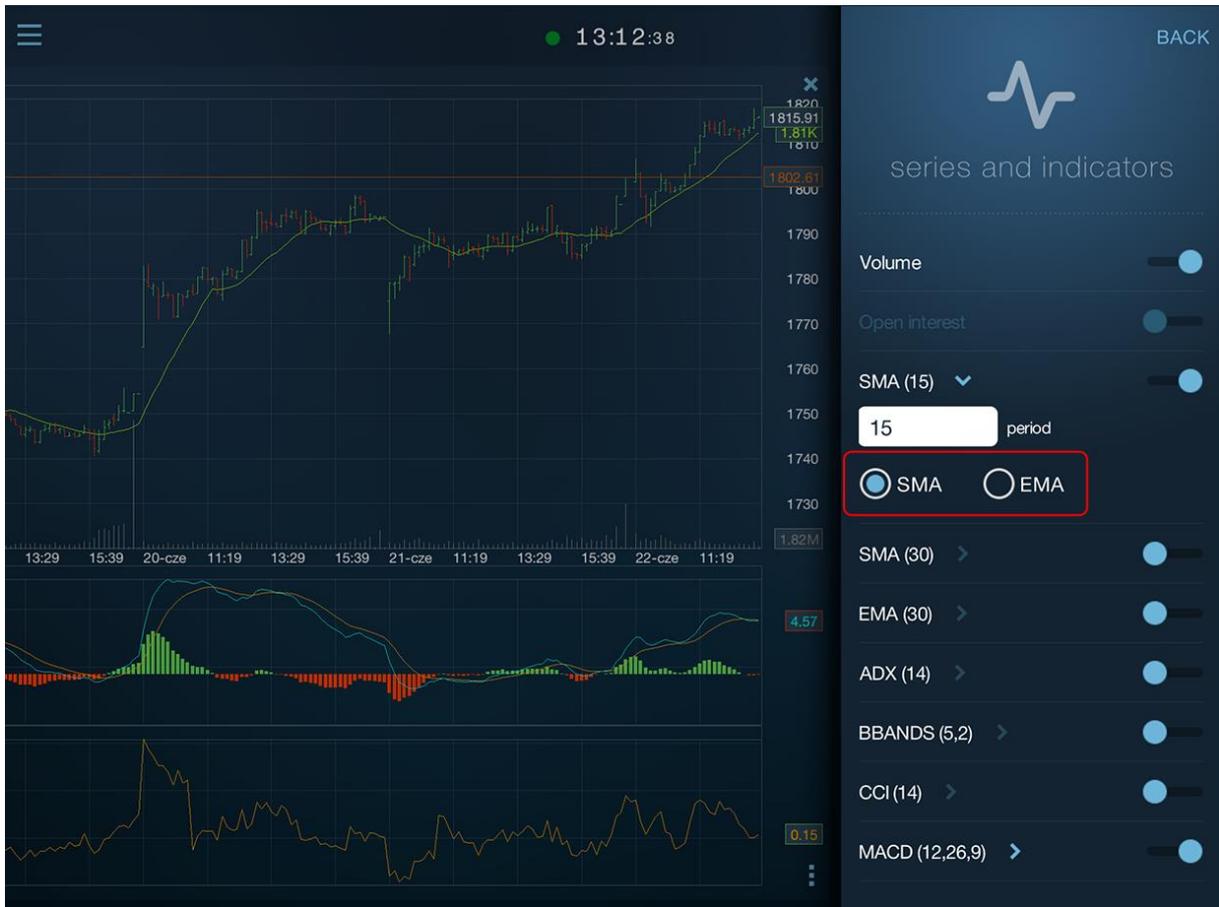

9.4.2. Changing the parameters

To change the parameter of the indicator placed in the chart, tap the name of the indicator in the “Series and indicators” window.

The list of parameters whose modifications the program allows for a given indicator will be expanded.

In the case of averages, there is an additional parameter which is the average type. The program enables to choose between the simple moving average (SMA) and the exponential moving average (EMA).

9.5. Chart template

Each new chart tab assumes the initial settings (chart type, interval, data range,...) specified in the installation settings of the program.

You can change these settings by copying the current settings for one of the open charts.

To do this, select “Save” command from the “Chart template” pop-up menu of the chart tab.

From now on, each new chart accepts the settings copied to the template.

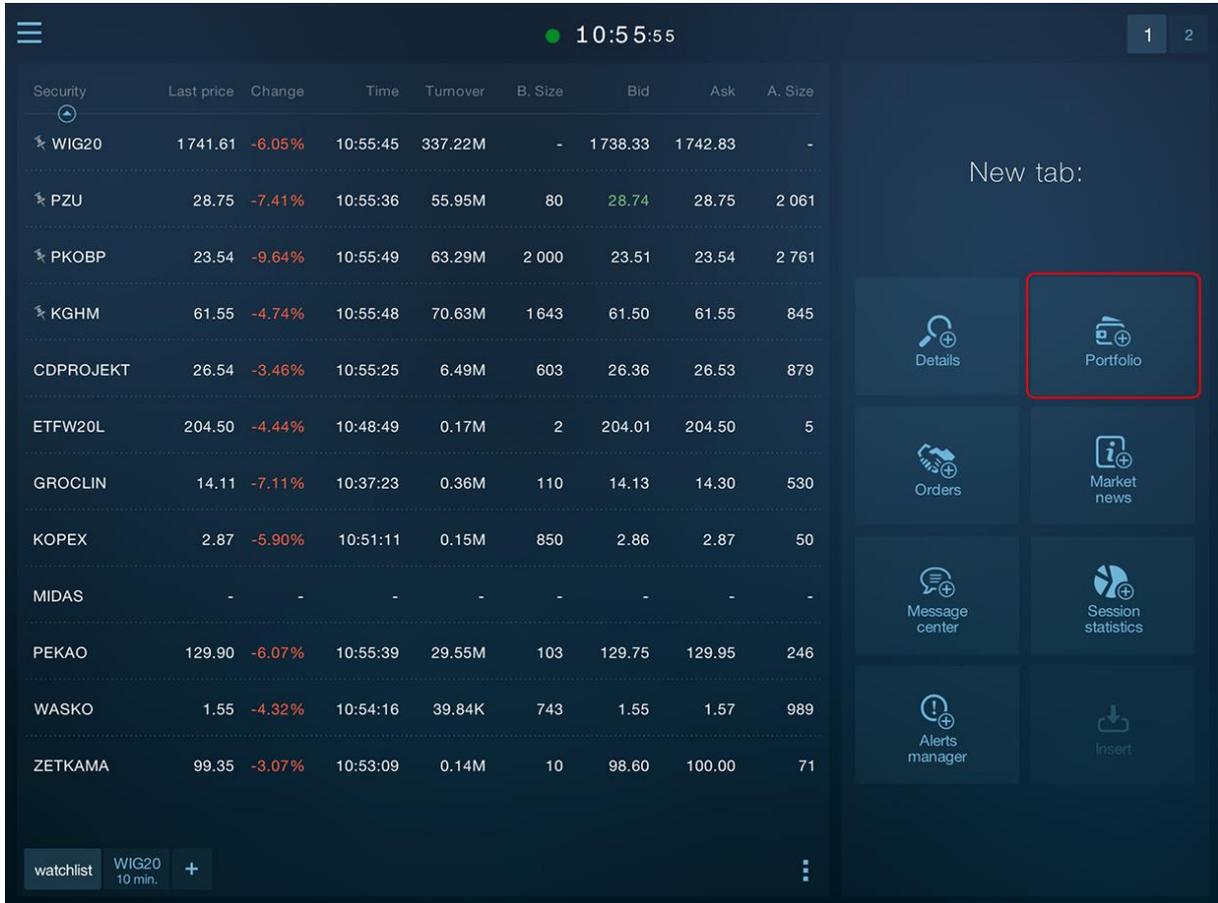

You can apply the changed template to open charts as well.

To do this, select “Apply” on the tab of the chart whose settings you want to change to the ones saved in the template. The chart will change.

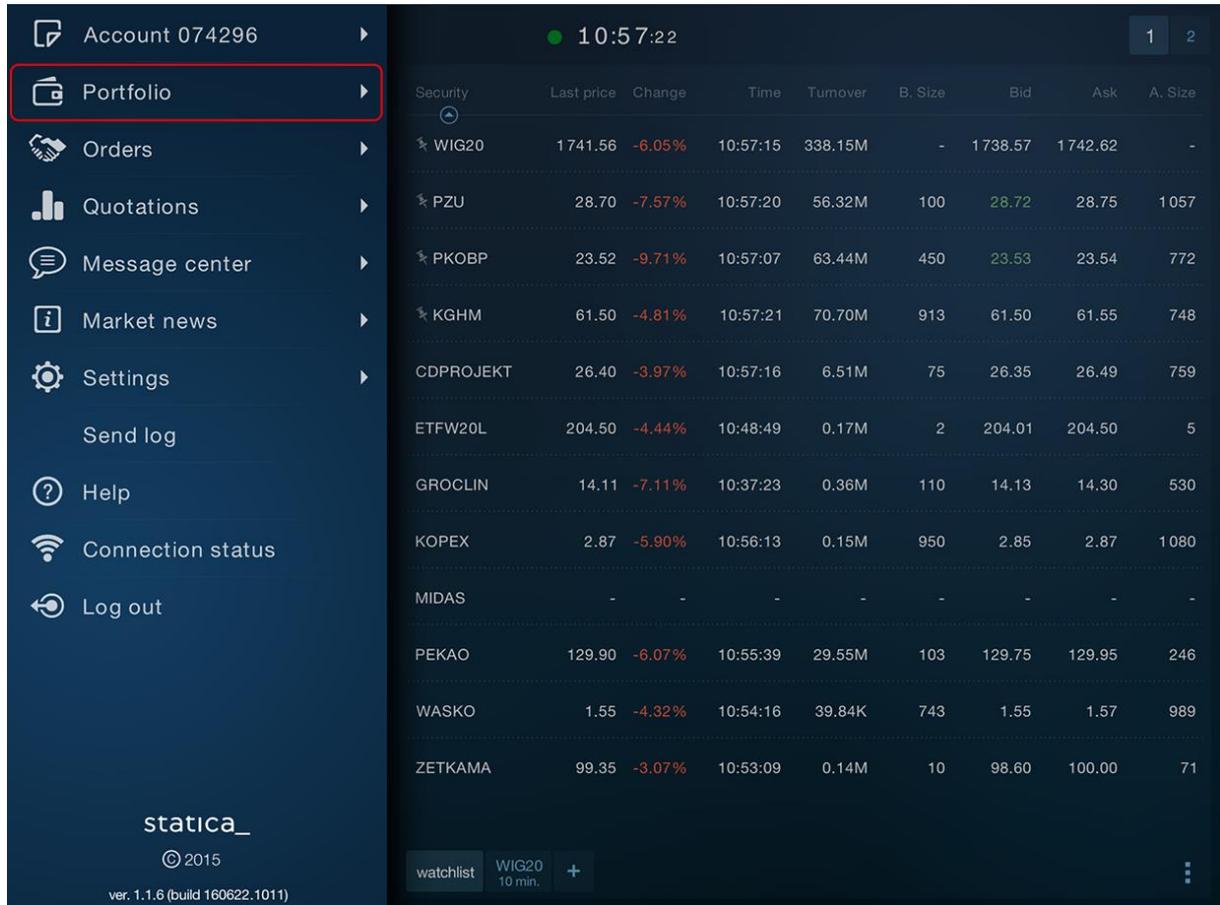

10. Portfolio

To check the **status of your finances**, open the portfolio window in the application.

To do this, select Portfolio in the screen for adding a new tab.

An alternative way to open a window is to expand the main menu , and then select the appropriate item from the **Portfolio** tab.

The portfolio window consists of five internal tabs:

- Current account statement
- Statement of securities held
- Credit line support – the capability to repay or to draw a credit line
- Capability to transfer funds – internal and external transfers
- History of operations

To enable the preview of an applicable tab, select the respective button on the toolbar at the top of the portfolio window:

The screenshot displays the STATICA MOBILE QUOTES 3 MAX application interface. The main window is divided into two sections: a table of securities on the left and a portfolio summary on the right.

Table of Securities:

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size

Portfolio Summary (Right Panel):

- Account: 074296 Cash
- Toolbar: statement, securities, credits, transfer (highlighted with a red box)
- Views: simplified, detailed
- Funds for the purchase: 999 934.41 pln
- Cash: 999 934.41 pln
- Receivables: 0.00 pln
- Liabilities towards DM BOŚ: 0.00 pln
- Funds locked for orders: 65.59 pln
- Portfolio value including securities: 1000 000.00 pln

Bottom Bar:

- watchlist WIG20 10 min. +
- portfolio statement +

10.1. Statement

Statement screen shows the status of the funds on the account.

The information are shown in two views: simple and detailed.

You can navigate between views by tapping the appropriate tab.

The screenshot displays a mobile application interface for a portfolio statement. The top status bar shows the time as 11:03:09. The main content is divided into two panels. The left panel is a table of securities, and the right panel is a portfolio summary.

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1736.61	-6.32%	11:03:00	351.81M	-	1734.08	1738.38	-

WASKO	1.55	-4.32%	10:54:16	39.84K	743	1.55	1.57	989
ZETKAMA	99.35	-3.07%	10:53:09	0.14M	10	98.60	100.00	71

The right panel, titled 'Portfolio', shows account details for '074296 Cash'. It includes navigation tabs for 'statement', 'securities', 'credits', and 'transfer'. Below these are two view options: 'simplified' (highlighted with a red box) and 'detailed'. The portfolio summary lists the following items and values in PLN:

- Funds for the purchase: 999 934.41
- Cash: 999 934.41
- Receivables: 0.00
- Liabilities towards DM BOS: 0.00
- Funds locked for orders: 65.59
- Portfolio value including securities: 1 000 000.00

At the bottom, there are two buttons: 'watchlist' with 'WIG20 10 min.' and a plus sign, and 'portfolio statement' with a plus sign.

10.3. Credits

The application supports the **credit line** available to the customer's account.

The screen shows, among others, current credit exposure and enables to **replenish the brokerage account** with funds from the credit line and the **repayment of the credit**.

The screenshot displays a mobile application interface with a dark theme. On the left, a table lists market quotes for various securities. On the right, a 'Portfolio' panel shows account details and a 'REPAYMENT DRAWING' section. The 'credits' icon in the portfolio panel is highlighted with a red box.

10.4. Transfers

Transfers option enables to send internal and external transfers:

- **Internal transfer** – sending orders for funds transfer between the user’s own accounts at broker.
- **External transfer** – sending orders for the transfer of funds from an active account to a defined bank account.

The screenshot displays a mobile trading application interface. On the left, a table shows market data for various securities. The middle section shows a 'Portfolio' overview for account '074300 Cash', with options for 'statement', 'securities', 'credits', and 'transfers'. A 'Select the debited account:' screen lists three accounts: '074300 Cash', '440555 Foreign', and '909864 Forex'. On the right, a 'transfer' confirmation screen shows details for a 1000 PLN transfer to account '909864 Forex' at 'DM BOŚ S.A. RACHUNEK FOREX' on '24 Jun 2016'. Buttons for 'CANCEL', 'ACCEPT', and 'portfolio transfers +' are visible.

DONE

The screenshot displays a mobile trading application interface. On the left, a table shows market data with columns for 'Turnover', 'B. Size', 'Bid', 'Ask', and 'A. Size'. The middle section, titled 'Portfolio', shows the account balance as '074296 Cash' and lists several transactions from December 23, 2015, each for a value of -30.40 PLN, with descriptions in Polish. On the right, an 'operations filter' menu is open, listing various transaction types such as 'deposits', 'withdrawals', 'draws', 'repayments', 'dividends', 'trades', and 'all'. A 'CANCEL' button is visible at the top right of the filter menu.

11. Orders

The application enables to:

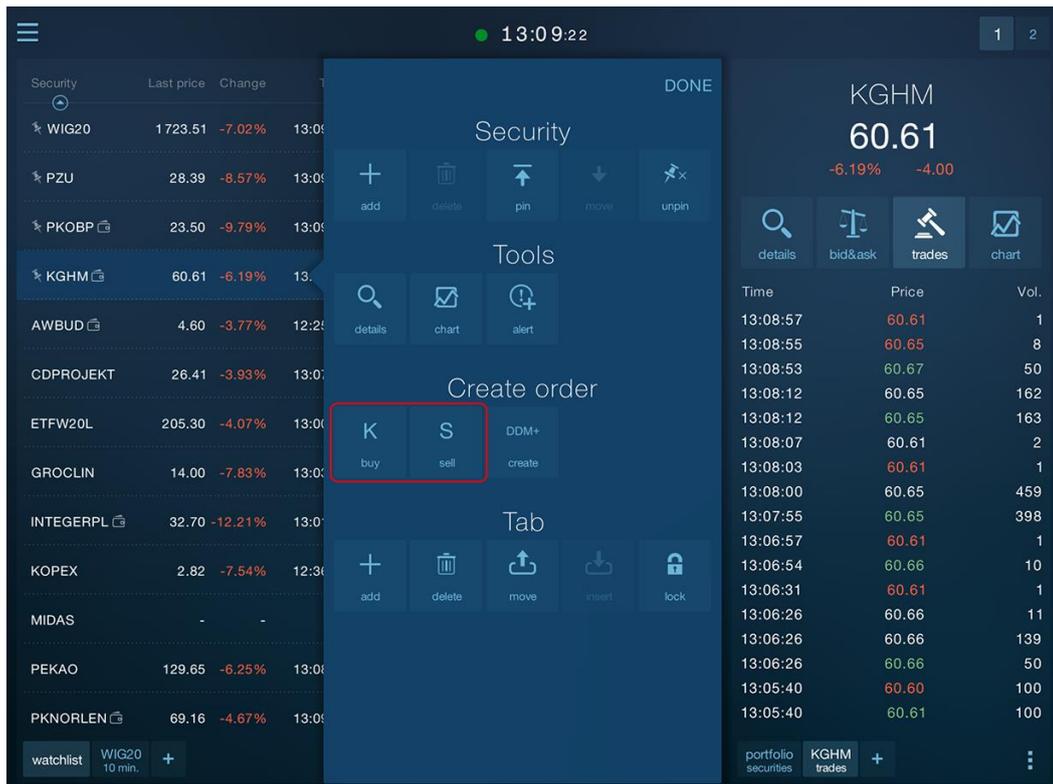

- **Submit orders** for buying and selling on all kinds of customer's investment accounts, including stock or contractual
- **Preview** the details and status of current orders
- **Remove** and **modify** the orders
- Access the complete **history of created orders**

11.1. Creating orders

You can create orders in the application from several levels:

- **From the watchlist**

- **From the table pop-up menu** -> Tap and hold the name of the selected stock in the trading screen to place an order – this will display a context menu. Then select the type of order K – Buy, S – Sell. The selection will open the orders form – you can edit the order parameters

- **Buttons in the expanded table row** – tap the applicable button to open the orders form: green-buy or red-sell in the drop-down row of the watchlist.

- **From the main application menu – Go to the application menu and then select Orders > Create a new order tab to place an order**

The screenshot shows the application's main interface. On the left, a dark sidebar contains a menu with the following items: Account 015222, Portfolio, Orders (expanded), Create a new order (highlighted with a red box), Create a new DDM+ order, Orders overview, Viewer, Orders history, Quotations, Message center, Market news, Settings, Send log, Help, Connection status, and Log out. The main content area displays a table of market data with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The table lists securities such as WIG20, PZU, PKOBP, KGHM, AWBUD, CDPROJEKT, ETFW20L, GROCLIN, INTEGERPL, and KOPEX. A detailed view for KGHM is shown, including a line chart and bid/ask information.

- From the **securities** screen

The screenshot displays the STATICA mobile securities interface. At the top, the time is 13:10:03. The main section shows a market watchlist with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The watchlist includes WIG20, PZU, PKOBP, KGHM, AWBUD, CDPROJEKT, ETFW20L, GROCLIN, INTEGERPL, and KOPEX. The KGHM security is highlighted with a detailed view showing its last price at 60.61, a change of -6.19%, and a volume of 15. A candlestick chart for KGHM is also visible. To the right, the 'Portfolio' section shows the account '015222 Cash' and a list of securities held, including INTEGERPL and KGHM. The KGHM entry in the portfolio shows a quantity of 25 and a value of 1408.75. Below the portfolio list, there are 'SELL' and 'BUY' buttons. At the bottom, the total value of the portfolio is 6177.07.

- From the security details and charts:

- From the pop-up menu -> similarly as in the watchlist pop-up menu.

The screenshot displays a mobile trading application interface. The main screen shows a list of securities with columns for Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The security KGHM is selected, showing a last price of 60.61 and a change of -6.19%. A line chart for KGHM is visible, along with order entry buttons for 'buy' (K) and 'sell' (S). A pop-up menu is open on the right side, titled 'Security', with a 'DONE' button at the top right. The menu contains a 'change' button, a 'Create order' section with 'buy' (K) and 'sell' (S) buttons, and a 'Tab' section with 'add', 'delete', 'move', and 'insert' buttons. A 'lock' button is also present at the bottom of the menu. The 'buy' and 'sell' buttons in the 'Create order' section are highlighted with a red box.

- **The Bid&Ask screen** -> using dedicated Buy and Sell buttons, as well as after tapping the selected row in the Bid&Ask table (the price of the selected Bid or Ask will be populated in the form by default)

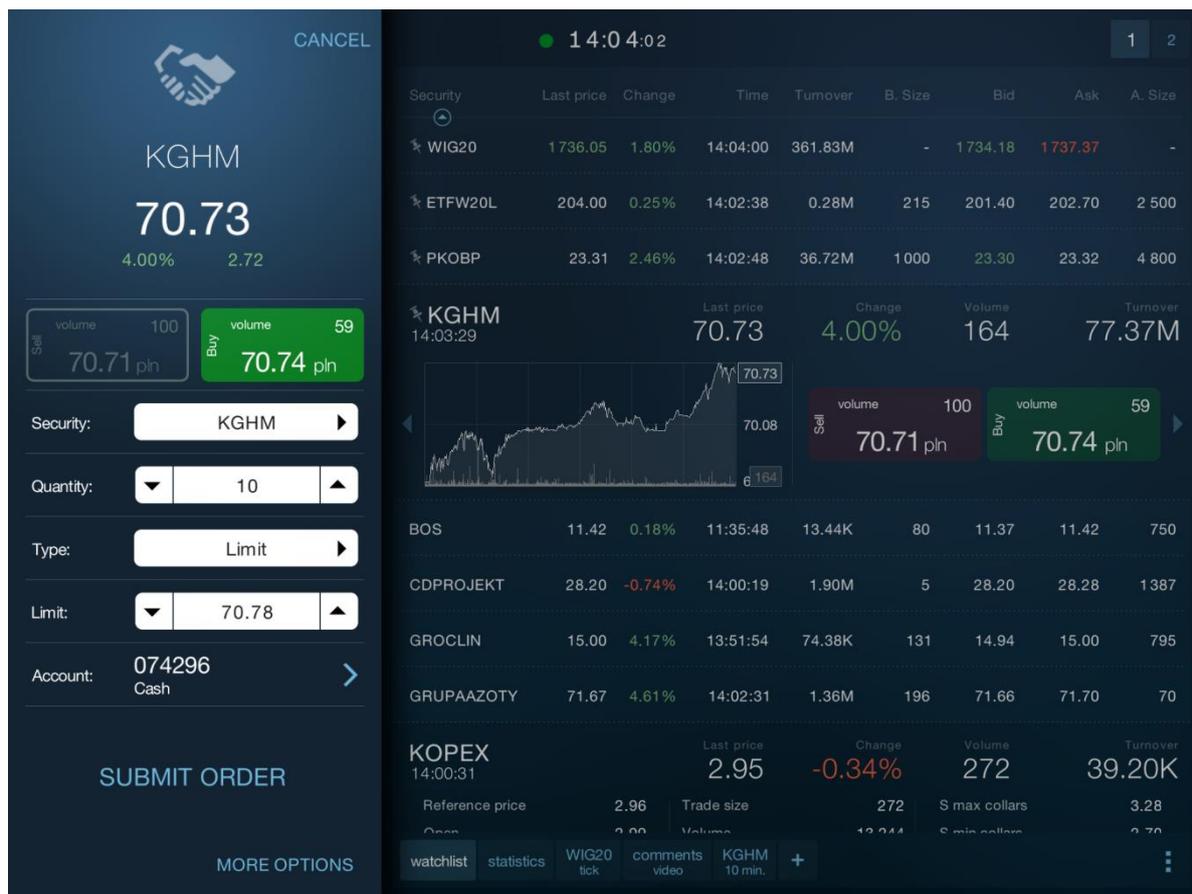

The screenshot displays the Bid&Ask interface for the security KGHM. At the top, a table lists various securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The security KGHM is highlighted in the table. To the right, a large panel shows the security name 'KGHM' and its current price '60.75' in red, along with percentage changes of -5.97% and -3.86. Below this, there are four navigation icons: details, bid&ask (selected), trades, and chart. The main area is divided into 'Ask' and 'Bid' sections. The 'Ask' section shows a table of ask orders with columns for Avg price, Price, Vol., and Sum. vol., and a red 'Buy' button. The 'Bid' section shows a table of bid orders with the same columns and a red 'Sell' button. At the bottom, there are watchlist and portfolio management controls.

Tap **More options** in the lower left corner of the screen to go to the additional order options (stop price, disclosed value, minimum value, order validity or deferred payment).

Order form – additional options view

The screenshot displays a mobile trading interface for the KGHM stock. On the left, there is an order form with the following fields:

- Stop price:** 70.78
- MaxFloor:** (empty)
- MinQty:** (empty)
- TimeInForce:** day
- From:** 11 Jul 2016 **To:** 11 Jul 2016
- DeferredPay.:** no DP

At the bottom of the order form is a **SUBMIT ORDER** button and a **BACK** button. The main screen shows market data for KGHM and other securities:

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1735.91	1.79%	14:03:45	361.80M	-	1734.09	1737.55	-
ETFW20L	204.00	0.25%	14:02:38	0.28M	215	201.40	202.68	2 500
PKOBP	23.31	2.46%	14:02:48	36.72M	7 877	23.29	23.32	4 800

Below the table, the KGHM stock details are shown:

- KGHM** (14:03:29)
- Last price: 70.73
- Change: 4.00%
- Volume: 164
- Turnover: 77.37M

A price chart for KGHM is visible, showing a price of 70.73. The chart includes volume bars and a price line. The current price is 70.71 (sell) and 70.74 (buy).

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
BOS	11.42	0.18%	11:35:48	13.44K	80	11.37	11.42	750

11.2. Orders overview

The application enables to view current and archived orders. You can view current orders from the **Orders overview** window.

Orders overview window includes two internal tabs: active and archived orders.

You can open the Orders overview window in two ways:

- From the application main menu: **Orders > Orders overview.**

The screenshot shows the application's main menu on the left and a detailed market overview on the right. The 'Orders overview' option in the menu is highlighted with a red rectangle. The market overview includes a table of securities and a detailed view for KGHM.

11.2.1. Active orders

The **Active** tab of the **Orders overview** window contains all active orders, i.e. those that are likely to be executed in the future (i.e., are not completed, partially completed or pending).

You can **modify** or **remove orders** from the active orders overview.

Buttons for modifying or canceling are available when you expand the order line (after tapping the order line in the list).

The screenshot displays the 'Orders' section of the application. On the left, a table lists securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The 'ETFW20L' security is highlighted, showing a last price of 206.34 and a 1.90% change. Below this, a line chart shows price fluctuations, and a summary box indicates a sell volume of 3 and a buy volume of 2,500 at prices of 206.34 and 206.65 respectively.

On the right, the 'Orders' panel shows the account '077309 Cash' and navigation options: 'overview' (highlighted with a red box), 'viewer', and 'history'. Below these are 'active' and 'archive' tabs. A list of active orders is shown, including 'GRUPAAZOTY', 'BOS', 'ETFW20L', and 'PKNORLEN'. The 'ETFW20L' order is expanded, showing details such as 'Active Qty: 1', 'Time In Force: day', 'Date From: 28 Jun 2016', 'Date To: 28 Jun 2016', 'Order ID: 99737469', and 'Commission: 5.00'. At the bottom of the panel are 'MODIFY' and 'REMOVE' buttons.

11.2.1. Archive orders

Archive tab of the **Orders overview** window shows the current, but inactive orders; those which changed their status during the current session, but are unlikely to be executed (e.g. were rejected, canceled or executed in full during the current session).

You can **resubmit orders** from the archive orders overview.

Resubmitting an order consists in creating a **new** order with the same parameters as the submitted order.

Buttons for resubmitting the order are available when you expand its line (after tapping the order line in the list).

The screenshot displays the STATICA MOBILE QUOTES 3 MAX application interface. On the left, a table lists securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The securities listed include WIG20, PZU, PKOBP, KGHM, 06MAGNA, ASSECOPOL, BOS, and CDPROJEKT. Below this table is a detailed view for EFW20L, showing its last price (206.34), change (1.90%), volume (3), and turnover (126 515.00). A line chart shows the price movement, and there are buttons for 'Sell' (volume 3, price 206.34 pln) and 'Buy' (volume 2 500, price 206.70 pln). At the bottom left, there is a 'watchlist' section for WIG20.

On the right side, the 'Orders' panel is visible, showing the account '077309 Cash'. It has three tabs: 'overview', 'viewer', and 'archive', with the 'archive' tab highlighted. Below the tabs, there is a table of orders with columns for Security status, B/S, Quantity fulfilled, and Limit StpPx/Peg. The orders listed are PKOBP (executed), 06MAGNA (cancelled), and PKNORLEN (cancelled). Below the table, there are fields for 'Unfulfilled Qty' (1), 'Time In Force' (day), 'Deferred Pay.' (no DP), 'Date From' (28 Jun 2016), 'Max Floor' (Date To: 28 Jun 2016), 'Min Qty', 'Order ID' (99737469), 'Value' (36.59), and 'Commission' (5.00). A prominent blue button labeled 'RESUBMIT THE ORDER' is present. At the bottom of the orders panel, there is a row for ASSECOPOL (cancelled) with a quantity of 2 and a limit of 61.00. The bottom navigation bar includes icons for 'KGHM bid&ask', 'portfolio securities', 'orders overview', and a plus sign.

11.3. Viewer

You can open the **Viewer** window in two ways:

- From the application main menu: **Orders > Viewer**.

The screenshot shows the application's main interface. On the left, a dark sidebar contains a menu with the following items: Account 015222, Portfolio, Orders (expanded), Create a new order, Create a new DDM+ order, Orders overview, **Viewer** (highlighted with a red box), Orders history, Quotations, Message center, Market news, Settings, Send log, Help, Connection status, and Log out. The main content area displays a table of market data with columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The table lists securities such as WIG20, PZU, PKOBP, KGHM, AWBUD, CDPROJEKT, ETFW20L, GROCLIN, INTEGERPL, and KOPEX. A detailed view for KGHM is shown, including a line chart of its price from 13:08:57 to 13:09:47, with a current price of 60.61 and a change of -6.19%. Below the chart, a bid-ask spread table shows a sell order at 60.61 pln (volume 94) and a buy order at 60.68 pln (volume 206). At the bottom, there is a watchlist section for WIG20 with a refresh button.

STATICA MOBILE QUOTES 3 MAX

- By adding a new tab -> select **Orders** in the screen for adding a new tab. Viewer is on the second internal tab of the Orders panel.

KGHM bid&ask +

New tab:
Details Portfolio
Orders Market news
Message center Session statistics
Alerts manager Insert

Viewer provides an overview of short messages on the activities and operations on the account, e.g., submission, execution, modification or cancellation of the order or performing a transfer from the account, etc.

The screenshot displays the STATICA MOBILE QUOTES 3 MAX interface. At the top, the time is 10:29:54. The main area is divided into three sections:

- Market Overview Table:** A table listing securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. Securities include WIG20, PZU, PKOBP, KGHM, 06MAGNA, ASSECOPOL, BOS, CDPROJEKT, and GROCLIN.
- ETFW20L Detail View:** A detailed view for ETFW20L (10:07:41) showing a last price of 206.34, a 1.90% change, and a volume of 3. It includes a candlestick chart and a summary of sell (3 units at 206.34 pln) and buy (2500 units at 206.58 pln) orders.
- Orders Panel:** A panel on the right titled 'Orders' for account '077309 Cash'. It features three buttons: 'overview', 'viewer' (highlighted with a red box), and 'history'. Below the buttons is a list of order activities with timestamps and descriptions, such as 'Zaksięgowano przelew: 50 zł, 00-55-077309' and 'Zarejestrowano zlecenie PKOBP S 1*23,56 (nr 99737904) godz. 10:22:37'.

11.4. Orders history

Orders history window provides the preview of any type of order from any time range. The window contains both active and archive orders.

You can open the History of orders window in two ways:

- From the application main menu: **Orders > Orders History**.

The screenshot displays the application's main menu on the left and a market overview on the right. The 'Orders history' option in the menu is highlighted with a red rectangle. The market overview table lists several securities with their respective prices and changes. The 'KGHM' security is selected, showing a price of 60.61 and a change of -6.19%. Below the table is a line chart for KGHM and a buy/sell order book showing a bid of 60.61 and an ask of 60.68.

As with the Orders overview window, **Modify** and **Remove** (for active orders) or **Resubmit the order** (for inactive orders) buttons appear in the expanded order line.

The screenshot displays the STATICA MOBILE QUOTES 3 MAX interface. At the top, the time is 11:06:03. The main market overview table lists various securities with their last prices, changes, times, and turnover. Below this, a detailed view for ETFW20L shows its last price at 205.00, a 1.23% change, and a volume of 10. A line chart and order book are also visible for ETFW20L. On the right, the 'Orders' panel is expanded for PKOBP, showing order details such as 'executed', 'Unfulfilled Qty', and 'Deferred Pay.' A red box highlights the 'RESUBMIT THE ORDER' button in this panel.

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size

watchlist WIG20 10 min. +

The screenshot displays a mobile trading interface with three main sections:

- Market Data (Left):** A table showing turnover, bid/ask prices, and sizes for various securities. Below it, a summary shows a 1.23% change and a volume of 10. A buy/sell volume indicator shows 204.00 pln (sell) and 205.00 pln (buy).
- Orders (Center):** A detailed view of an order for PKOBP, showing it is executed. It includes fields for Security status, B/S, Quantity fulfilled, Limit, Unfulfilled Qty, Time In Force, Date From, Date To, Max Floor, Min Qty, Order ID, Value, and Commission. A 'RESUBMIT THE ORDER' section lists other securities like 06MAGNA, GRUPAAZOTY, BOS, and ETFW20L.
- Orders Filter (Right):** A modal overlay with a funnel icon and 'orders filter' text. It includes a 'CANCEL' button at the top right and a 'DONE' button at the bottom. Filter categories include Security (all securities), Status (all statuses), and Market (all markets). Date filters for 'Created from' (21 Jun 2016) and 'Created until' (28 Jun 2016) are also present.

11.5. Modifying and canceling of orders

You can modify or remove the orders from the **Orders overview** and **History of orders** windows. Buttons for modifying or removing are available when you expand the order line (after tapping the order line in the list).

The screenshot displays the 'Orders' window in the STATICA mobile app. The top section shows a list of securities with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. Below this, a detailed view for the security 'BOS' is shown, including a price chart and order details. The order details for 'BOS' are highlighted with a red box and include:

Security status	B/S	Quantity fulfilled	Limit StpPx/Peg
GRUPAAZOTY	S	3	79.00
BOS	S	2	12.00

Additional order details for 'BOS' include:

Active Qty	2	Time In Force	day
Deferred Pay.	no DP	Date From	28 Jun 2016
Max Floor		Date To	28 Jun 2016
Min Qty		Order ID	99737537
Value	19.00	Commission	5.00

Below the order details, there are 'MODIFY' and 'REMOVE' buttons. The bottom of the screen shows a watchlist with 'WIG20' and navigation options like 'KGHM bid&ask', 'portfolio transfers', and 'orders overview'.

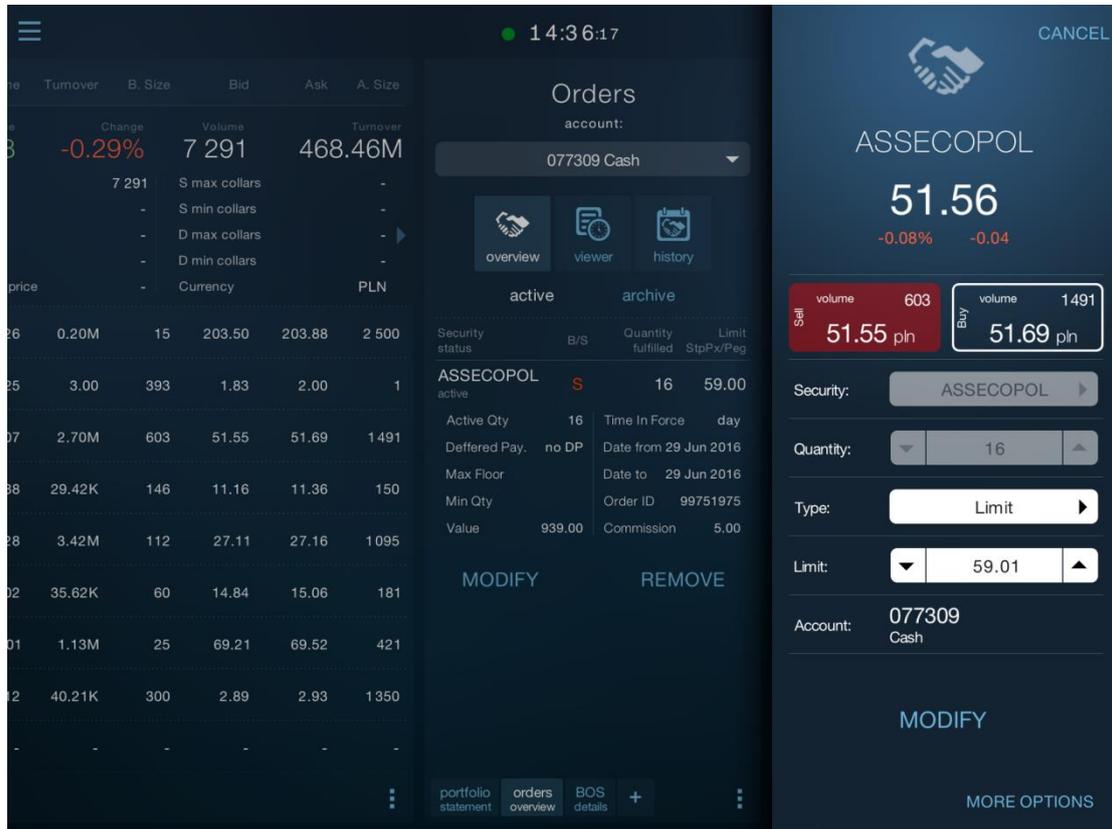

You can modify or cancel **active orders** only, that is, those that are likely to be executed in the future (i.e., are not completed, partially completed or pending).

For inactive orders the only available option is to redo the order, i.e., issue a new order with the same parameters.

11.5.1. Modify the order

When you click the **Modify** button in the order line, a modification form will open, which is the same in its design as the form for submitting a new order. However, the fields which cannot be modified (e.g. security, order side, number, etc.) are locked.

Modification form – basic view

Modification form – additional options view

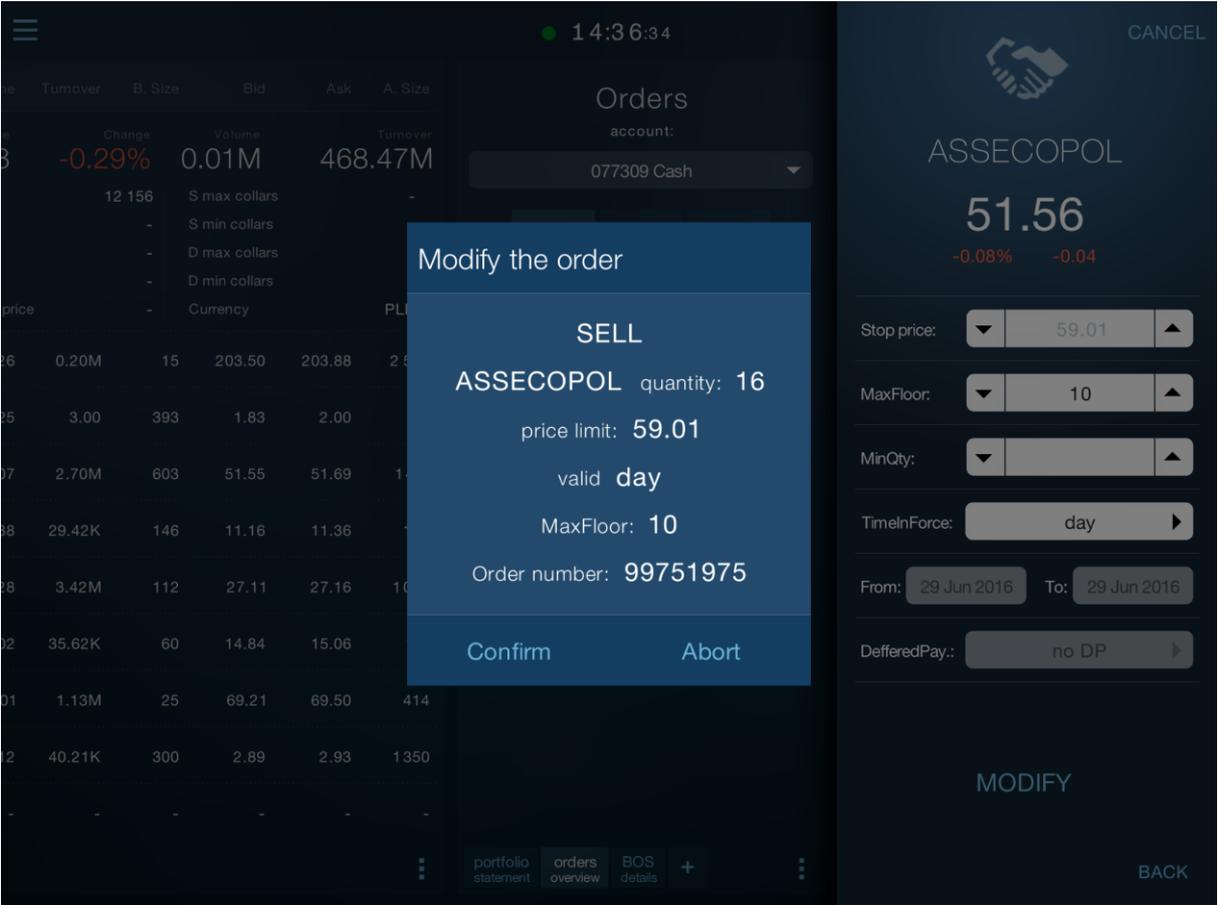

The screenshot displays a mobile trading application interface. On the left, a table shows market data with columns for Turnover, B. Size, Bid, Ask, and A. Size. The central panel, titled 'Orders', shows account information (077309 Cash) and navigation options (overview, viewer, history). Below this, order details for 'ASSECOPOL' are listed, including Active Qty (16), Time In Force (day), and other parameters. The right-hand panel is a 'Modification form' for the selected order, featuring a 'CANCEL' button at the top and a 'MODIFY' button at the bottom. It contains several input fields: Stop price (59.01), MaxFloor (10), MinQty, TimeInForce (day), From/To dates (29 Jun 2016), and DefferedPay (no DP). A 'BACK' button is located at the bottom right of the right-hand panel.

STATICA MOBILE QUOTES 3 MAX

After setting the new order parameters in the format, click the **Modify** button in the lower left corner of the form, and then approve the changes in the displayed message:

11.5.2. Removing the order

When you click the **Remove** button in the order line, you will be asked for confirmation of the cancellation of the order in the pop-up message. You can also abort the removing of the order.

11.6. DDM+ orders

In addition to standard stock exchange orders the application allows placing DDM+ orders.

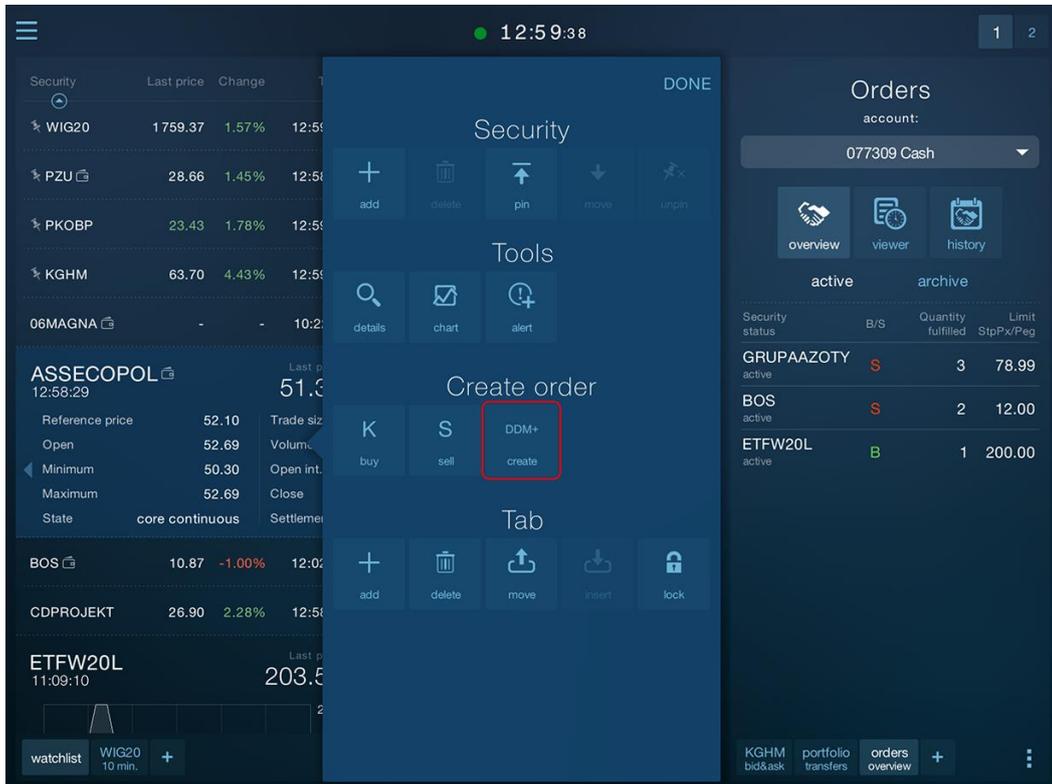

The following DDM+ orders offered by broker are available in the application:

- **Stop** (stop loss).
A single order, which activates after a specified price occurs.
- **Trailing Stop**.
A single STOP order in which the activation price moves in the case of a favorable change in the market price of the security.
- **OTO** – One Triggers Other
Two orders, the first of which is the main order and the second is a sub-order. Execution of the main order activates the sub-order.
- **OCO** – One Cancels Other
Three orders, the first of which is the main order and the subsequent two are sub-orders (Take Profit and Stop Loss). The execution of the main order causes the conditional activation of two sub-orders, of which the executed one will be the one which first meets the activation condition.
- **ORO** – One or Other
Two conditional orders (Take Profit and Stop Loss), of which the executed one will be the one which first meets the activation condition.

11.6.1. Creating DDM+ orders

You can place DDM+ orders in the application from several levels:

- **From the table pop-up menu** -> Tap and hold the name of the selected stock in the trading screen to create an order – this will display a context menu. Then select the **Create DDM+** button.

- **From the main application menu – Go to the application menu and then select **Orders > Create a new DDM+ order** tab to place an order**

The screenshot shows the application's main interface. On the left, a dark sidebar contains a menu with the following items: Account 015222, Portfolio, Orders (expanded), Create a new order, **Create a new DDM+ order** (highlighted with a red box), Orders overview, Viewer, Orders history, Quotations, Message center, Market news, Settings, Send log, Help, Connection status, and Log out. The main content area features a top status bar with the time 13:09:47 and page numbers 1 and 2. Below this is a table of market data for securities including WIG20, PZU, PKOBP, KGHM, AWBUD, CDPROJEKT, ETFW20L, GROCLIN, INTEGERPL, and KOPEX. The KGHM section is expanded to show a price chart, last price of 60.61, a change of -6.19%, and volume information. At the bottom, a watchlist shows WIG20 with a plus sign to add it.

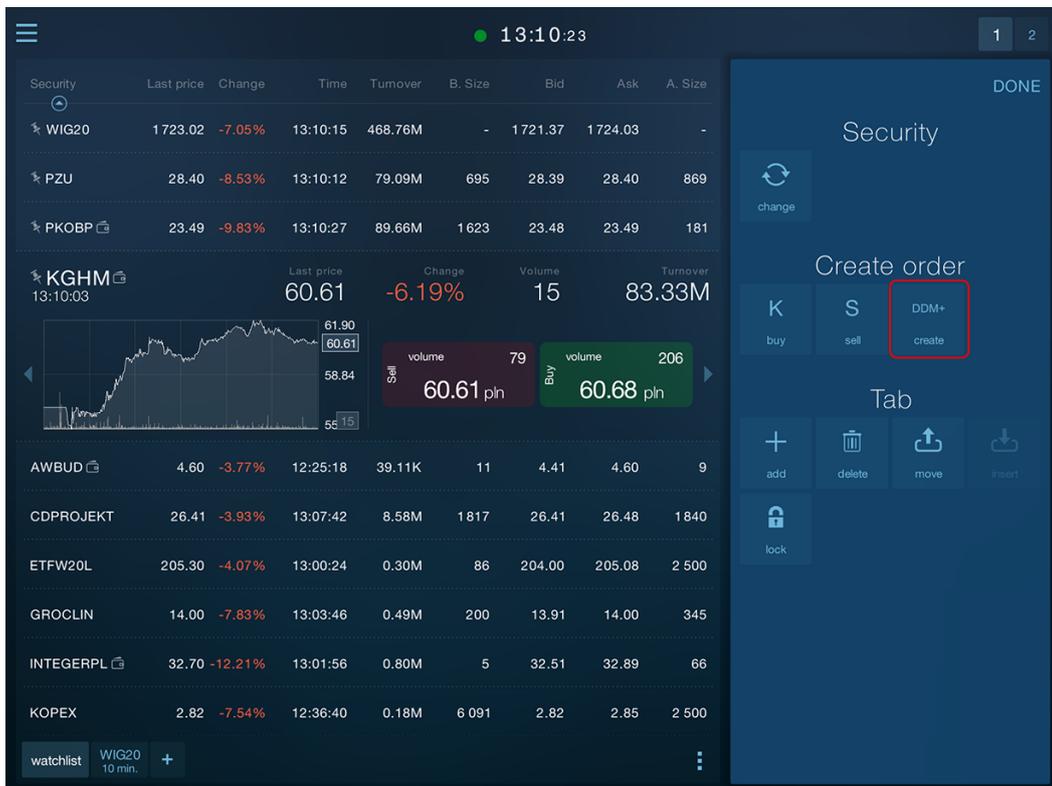

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1722.95	-7.05%	13:09:45	468.28M	-	1721.74	1723.99	-

KOPEX	2.82	-7.54%	12:36:40	0.18M	6 091	2.82	2.85	2 500

- From the pop-up menu of the security details or chart screen

Similarly as in the watchlist pop-up menu -> by clicking on the **Create DDM+** button

To create a DDM+ order, use a wizard consisting of several steps:

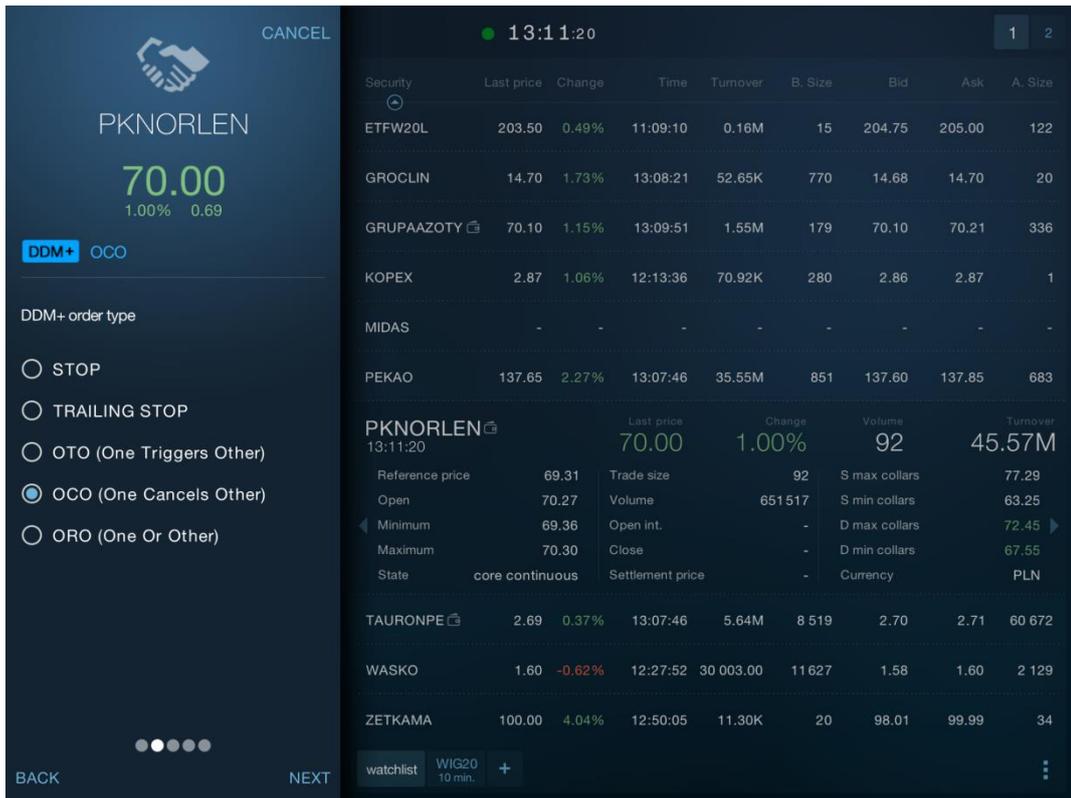

1. **Select security**

When you use the **Create a new DDM+ order** command in the main menu, the security selection screen is displayed first.

If you call the **Create DDM+** option from the watchlist or details screen, the security will be automatically populated, and you will be immediately moved to step 2.

2. **Selecting the type of DDM+ order**

After selecting the security, you select the type of DDM+ order:

3. Determining the parameters of order(s)

Depending on the type of DDM+ order, order parameters are located on two (STOP orders and Trailing Stop), or three (OTO, OCO, and ORO orders) consecutive screens.

After selecting the order type, you should specify its direction and basic parameters the main DDM+ order.

Order Entry Panel (Left):

Fill in the order(s) parameters on the subsequent screens depending on the type of DDM+ order. Some of them also contain sub-orders in addition to the main order. You define the sub-order parameters in the next step.

For convenience, the application marks mandatory order fields with a blue dashed line. The other parameters of the order are optional.

The screenshot displays a mobile trading interface. On the left, there are two order entry sections: 'TAKE PROFIT order' and 'STOP LOSS order'. Both sections have 'SELL' and 'MKT' buttons, a 'Quantity' field set to '7', and a 'Trigger price' field. The 'TAKE PROFIT' trigger price is '69.99' and the 'STOP LOSS' trigger price is '69.97'. Both trigger price fields are highlighted with a blue dashed border, indicating they are mandatory. The 'TAKE PROFIT' section also includes a 'Limit' field. At the top left of the order entry area, there is a 'CANCEL' button and a 'DDM+ OCO sub-order' label. The main part of the screen shows a market quote table for 'PKNORLEN' with a current price of '69.84' and a change of '0.76%'.

4. Submit an order and confirm (Send)

In the final step of the DDM+ order wizard, **Submit** option appears in the lower right corner of the screen. When you click on it, the window containing the summary of parameters of the submitted order appears.

The screenshot displays the PKNORLEN mobile trading interface. On the left side, there is an order entry panel with the following details:

- Symbol:** PKNORLEN
- Current Price:** 69.85 (Change: 0.78%, Volume: 0.54)
- Order Type:** DDM+ OTO sub-order
- Buy/Sell:** Sell volume 547, Buy volume 182
- Order Price:** 69.86 pln
- Quantity:** 7
- Type:** Limit
- Limit:** 69.86
- Stop price:** 69.86

At the bottom of the left panel, there are buttons for "BACK" and "SUBMIT ORDER".

The right side of the screen shows a market quote table with the following columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The table lists various securities including BOS, CDPROJEKT, ETFW20L, GROCLIN, GRUPAAZOTY, KOPEX, MIDAS, PEKAO, PKNORLEN, TAURONPE, WASKO, and ZETKAMA.

11.6.2. DDM+ orders on the orders list

DDM+ orders, after submitting, will also be displayed in **Orders overview** and **Orders history** windows.

DDM+ orders are marked with a blue label indicating the type of the DDM+ order. In the case of DDM+ containing more than one order (OTO, OCO, ORO), individual main orders and sub-orders will be listed as separate items.

DDM+ orders, which consist of the main order and sub-orders, are marked with an additional **main order number**, which is visible in the header (in blue).

DDM+ OCO (Stop Loss) (470812471)				
ASSECOPOL	active	S	16	60.00
DDM+ OTO (main order) (470812077)				

To see the order details, simply tap the order line (similarly, just tap the order line to collapse the details view).

Note!

The only available option in the detail view of **active** DDM+ orders is **Remove**. You cannot modify DDM+ orders.

Removing the main order cancels the entire order (including sub-orders). Similarly, the opposite – removing the sub-order cancels all orders in the group (including the main order).

There is no additional option in the details view of **inactive** DDM+ orders (it is not possible to **resubmit** the order). The order in the list is for informational purposes only.

11.7. Order templates

The application enables to set the order template – separately for Stocks and Derivatives. Order templates allow for automatic calculation of the order volume according to the method specified in settings.

Templates take into account the value of commission and the surplus for MKT orders

Order templates for Stocks – available options:

- **Account balance** – for Buy orders it calculates the order value for the entire balance of available funds for the purchase; for Sell orders it sells all owned securities.
- **Max. value of the order** – creates the order value which is not higher than the value specified in the template (including commissions).
- **Quantity from the offer** (with the balance priority for the sale) – for Buy orders, the quantity is populated from the selected Ask offer (the amount of securities without regard to the available balance), and for Sell orders the quantity is populated from Bid offer, up to the amount of the available balance of owned securities.

Order templates for Derivatives – available options:

- **Quantity of owned position or the amount from the offer** – creates an order for the quantity from the Bid or Ask offer, or amount of owned opened position.
- **Quantity** – creates an order for a defined number of securities.
- **Quantity from the offer** – creates an order for the quantity from the Bid or Ask offer.

Order templates – settings

The screenshot shows the 'Order templates – settings' screen. The left sidebar contains the following menu items: Account 077309, Portfolio, Orders, Quotations, Message center (3), Market news, Settings (expanded), Quotations, Accounts, Order templates (highlighted with a red box), Alerts, Style, Reset to defaults, Send log, Help, and Connection status. The main content area displays a table of market data for various securities. The table has columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The data is as follows:

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1743.73	0.67%	15:28:30	543.96M	-	1741.24	1744.47	-

12. Market news

Market news in the application consist of 5 screens:

1. Market comments
2. Stocks calendar
3. Macro calendar
4. PAP and ESPI messages
5. Video comments

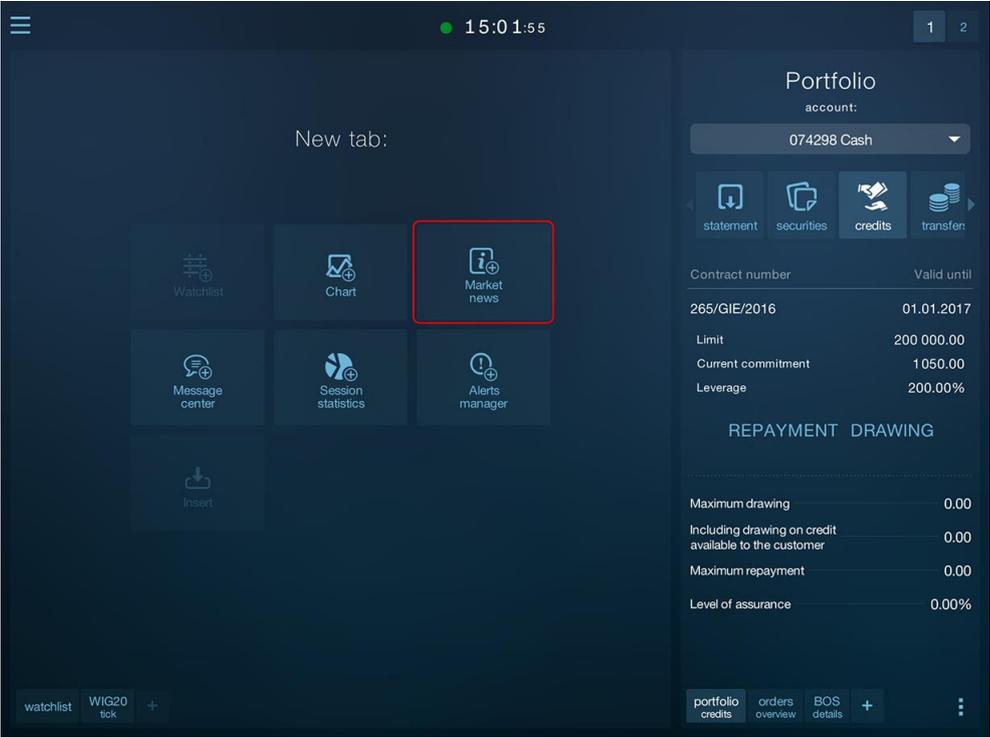

You can open the Market news window in two ways:

- From the application main menu: by selecting the appropriate item from the **Market news** tab.

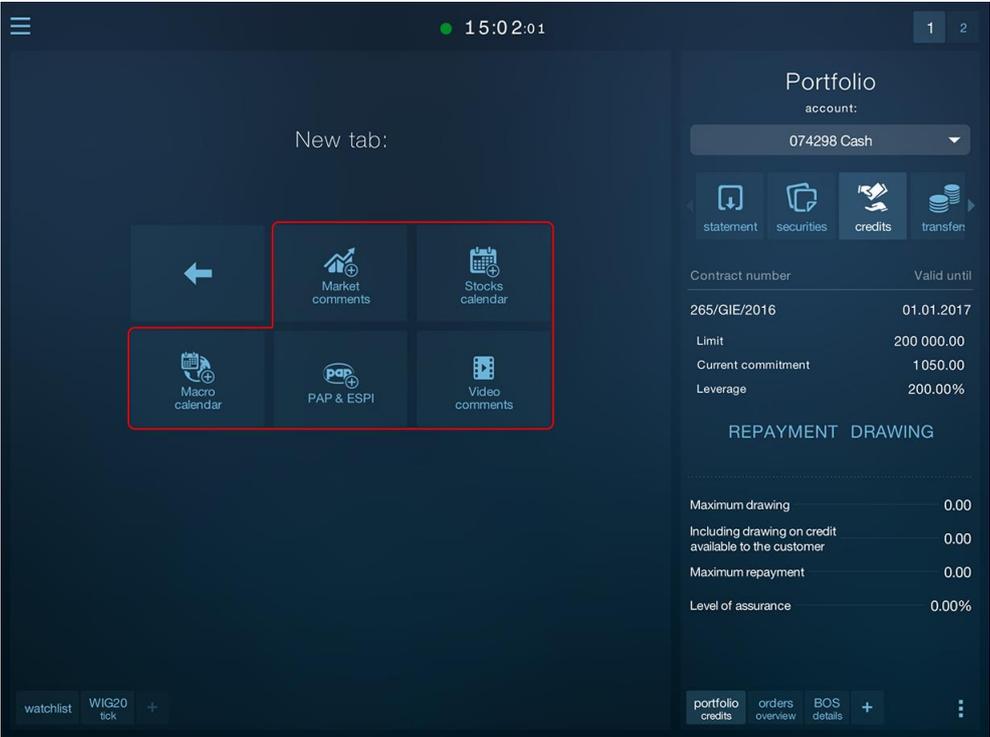

- By adding a new tab: select **Market news** in the screen for adding a new tab, and then select the appropriate news type on the next screen

1

2

12.1. Market comments

The application makes it easy to **access comments and analyzes** published by broker. In addition to viewing the comments, the application enables to open the attached PDF files (with the analyses). You can retrieve entries from previous days (using the “Get More” option at the bottom of the list).

Market comments – comments list view

The screenshot displays the 'Market comments' application interface. At the top, there is a navigation bar with a hamburger menu on the left, a status bar showing the time '15:32:51', and a 'Portfolio' section on the right. The main content area is titled 'market comments' and shows a list of news items with timestamps and titles. The right sidebar, titled 'Portfolio', shows an account balance of '077309 Cash' and navigation options for 'tatement', 'securities', 'credits', and 'transfers'. The bottom navigation bar includes 'watchlist', 'WIG20 tick', 'market comments', and 'portfolio credits', 'orders overview', 'BOS details'.

Market comments – comment details view

The screenshot displays the 'Market comments – comment details view' in the STATICA MOBILE QUOTES 3 MAX app. At the top, the time is 15:45:10. The main content area shows a comment from 29.06.2016 at 09:04, titled 'Otwarcie rynku kasowego (Łukasz Bugaj)'. The comment text describes the market opening with a 0.29% increase from 1756 points. Below the text are four charts: a candlestick chart for WIG20, a volume chart, a line chart for BOS, and a line chart for the spread. To the right, the BOS stock details are shown, including a price of 11.40, a 3.83% change, and a 0.42 change. A table of key statistics is provided, such as Reference price (10.98), Open (10.98), Maximum (11.40), Minimum (10.98), S max collars (12.07), S min collars (9.89), D max collars (12.14), D min collars (10.66), Trade size (501), Volume (3 263), Close, Settlement price, State (core continuous), and Currency (PLN). At the bottom, there are navigation options for 'watchlist', 'WIG20 tick', 'market comments', 'portfolio statement', 'orders overview', and 'BOS details'.

Market comments screen also includes comments after the session published by broker analysts that contain the summary of the most important events on the finished trading session.

After- session comments are marked with the  icon on the list.

Market comments also display a brief information about the publication of key macroeconomic data.

They are then marked with  icon.

12.2. Stocks calendar

The application enables to preview the stocks exchange calendar with major events in domestic (listed on the Warsaw Stock Exchange and New Connect) and foreign stocka, for the selected day.

In addition, the stock from the user portfolio are marked with graphics

The screenshot displays the 'stocks calendar' interface. At the top, the time is 16:09:35. The calendar shows the date 23.06.16 selected. Below the calendar is a table of events:

Company	Ticker	Event	Market
B3SYSTEM	B3S	GPW ZWZA ws. pokrycia straty za rok 2015 oraz dalszego istnienia spółki.

12.3. Macro calendar

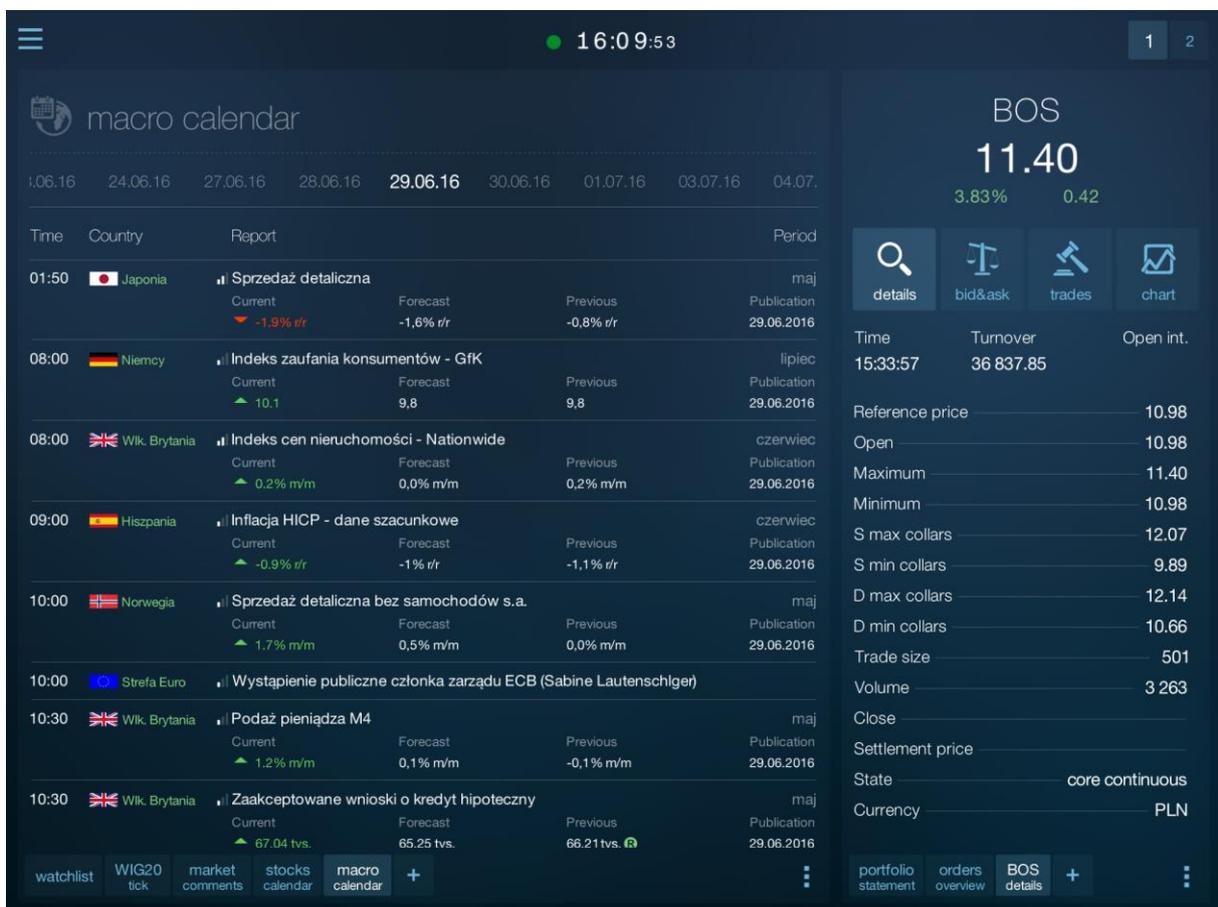

The application enables to preview the macroeconomic calendar showing the archive readings and forecasts in addition to the current readings and forecasts.

Current readings are colored in accordance with the direction of changes as compared to the forecast:

- green -> rise, blue -> no change, red -> fall as compared to the forecast.

The expanded calendar entry line also contains archive data in the form of a chart and the description of selected macroeconomic indicators.

12.4. PAP and ESPI messages

The application provides the access to Polish Press Agency (PAP) comments in the field of Economics and Finance, as well as ESPI messages containing current and periodic reports of stock listed on the WSE.

ESPI messages are highlighted in the list by highlighting the name of the reported stock company in the subject (using a different color).

Other messages (without highlighting the security name) are PAP messages.

The screenshot displays the 'PAP & ESPI' section of the application. The top right shows the BOS stock price at 11.50, with a 0.88% change and a volume of 0.10. The main list contains several messages, with ESPI messages highlighted in green. The bottom navigation bar includes options like 'watchlist', 'WIG20 tick', 'market comments', 'stocks calendar', 'macro calendar', 'PAP & ESPI', 'comments video', 'portfolio statement', 'orders overview', and 'BOS details'.

12.5. Video comments

Video comments screen provides access to video files published by the analysts and broker. The videos published include mainly the analyses of the current situation on individual markets (with live comment from the analyst), as well as educational videos (on investment techniques).

Video comments – list view

The screenshot shows the 'video comments' screen for the BOS market. The left panel lists several video comments with their titles and timestamps:

- 07.07.2016 05:55:29: Komentarz indeksowy Bossafx 7 lipca 2016 r.
- 06.07.2016 06:03:59: Komentarz walutowy BossaFX 6 lipca 2016r.
- 05.07.2016 10:51:06: Komentarz surowcowy - 5 lipca 2016 r.
- 04.07.2016 12:18:57: Webinar Marka Rogalskiego
- 01.07.2016 06:06:21: Komentarz walutowy BossaFX 1 lipca 2016r.
- 30.06.2016 05:10:19: Komentarz indeksowy Bossafx 30 czerwca 2016 r.
- 28.06.2016 05:49:47: Komentarz walutowy BossaFX 28 czerwca 2016r.

The right panel displays the BOS market details:

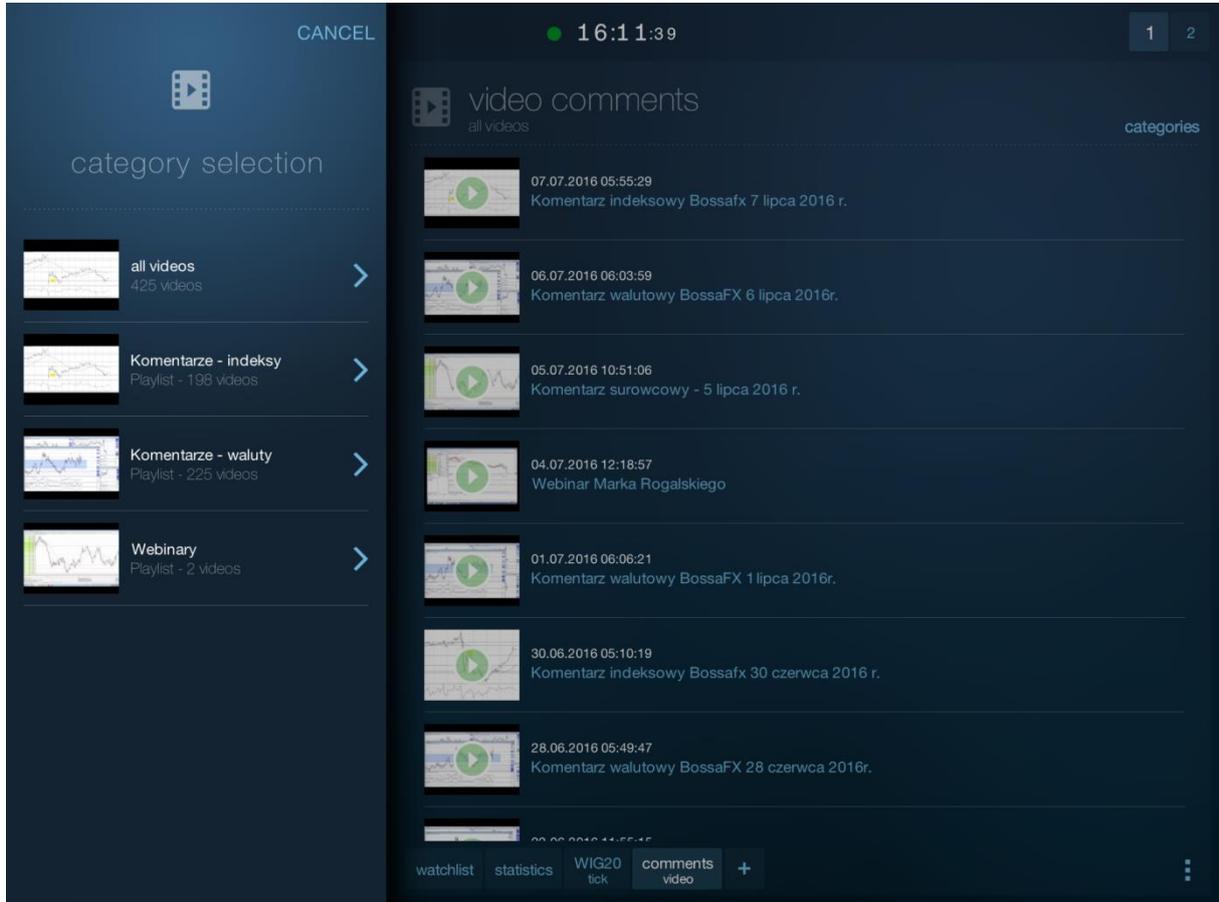

- BOS** price: **11.40**
- Change: **0.26%** (0.03)
- Time: 15:41:44
- Turnover: 24 740.37
- Open int. (Open interest): 11.37
- Reference price: 11.37
- Open: 11.37
- Maximum: 11.40
- Minimum: 11.37
- S max collars: 12.50
- S min collars: 10.24
- D max collars: 12.14
- D min collars: 10.66
- Trade size: 1
- Volume: 2 172
- Close: (blank)
- Settlement price: (blank)
- State: core continuous
- Currency: PLN

At the bottom, the navigation bar includes tabs for 'watchlist', 'statistics', 'WIG20 tick', 'comments video', and 'portfolio statement', with 'BOS details' selected.

By default, the screen loads the specified amount of the most recent video files, but you can limit the list of videos to a particular category.

You can access the **category filtering** from the context menu  or a direct link in the screen header.

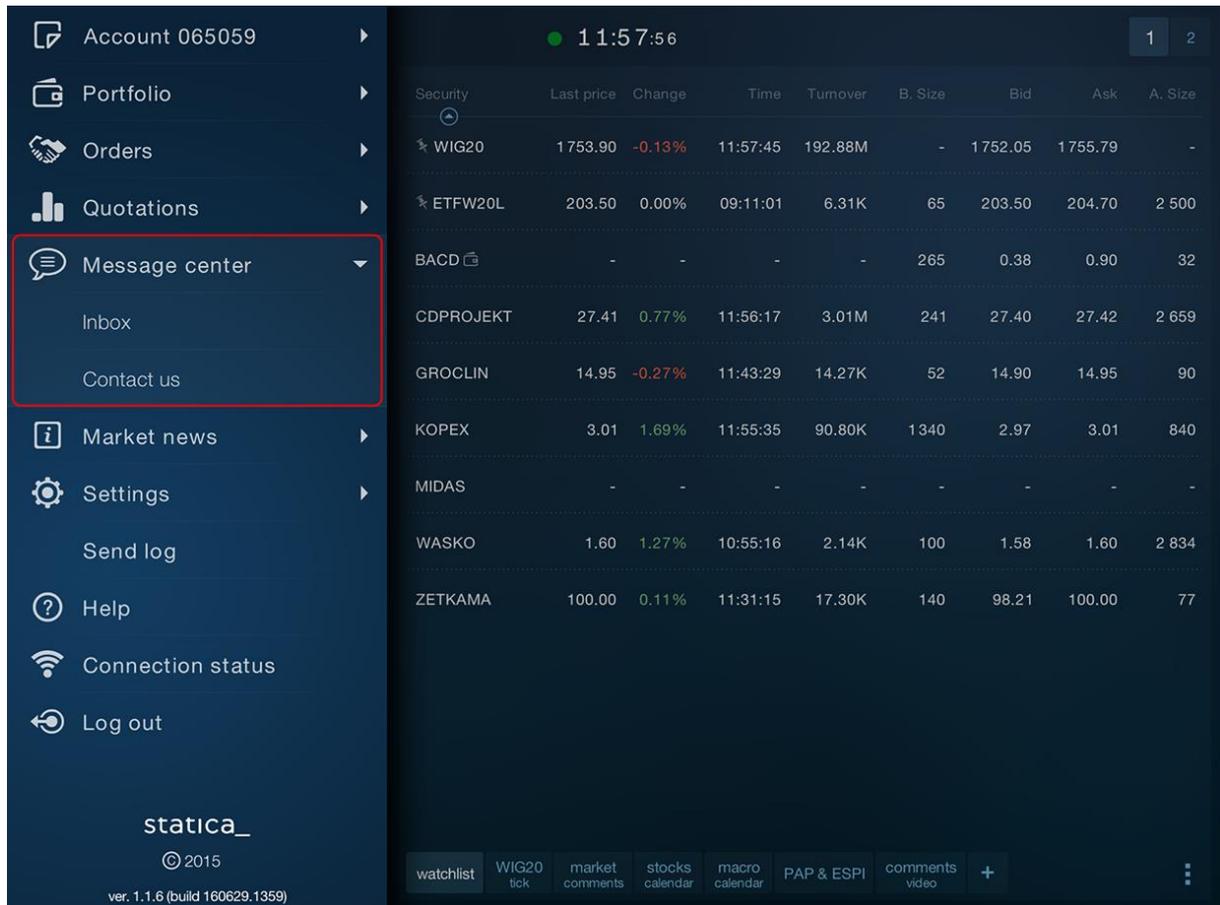

Video comments – category filter view

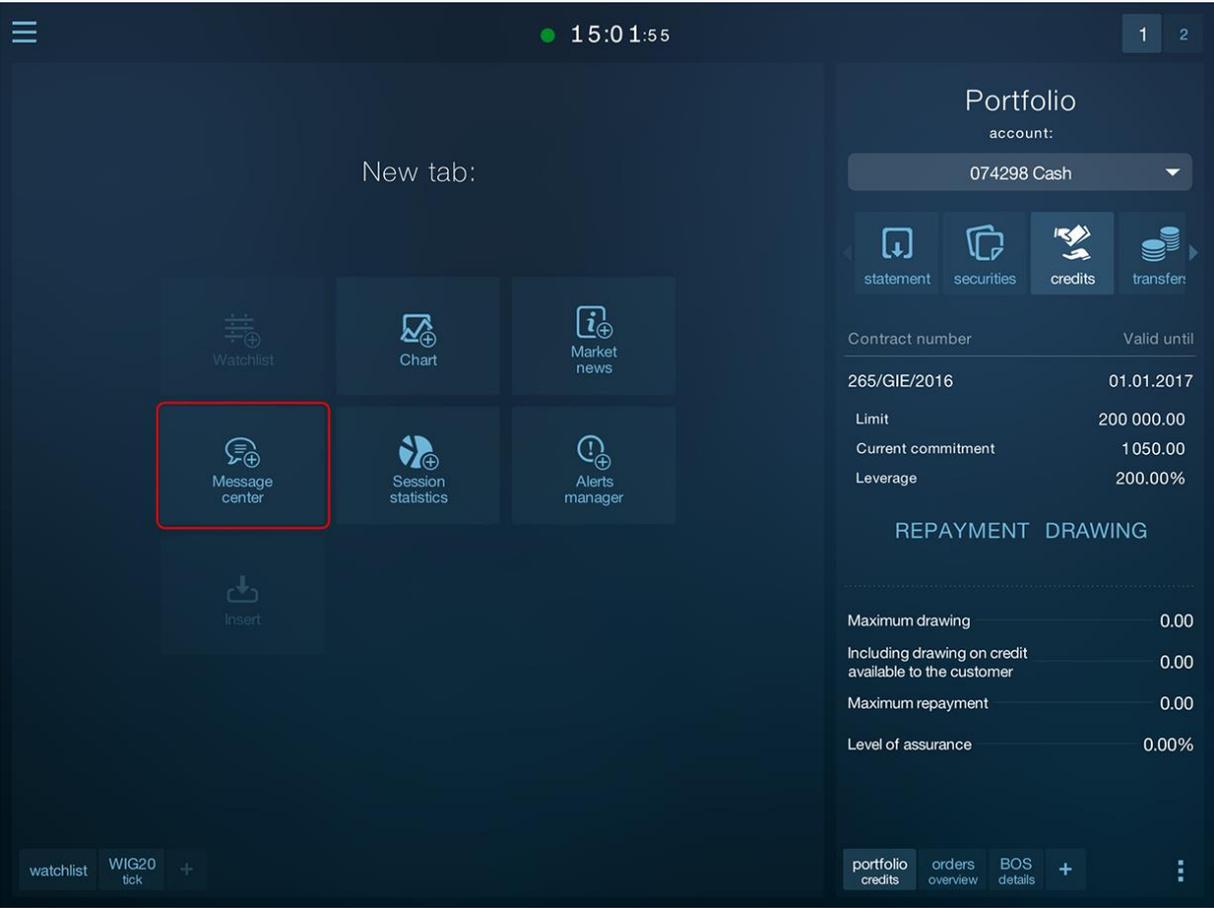

13. Message center

You can open the Message center window in two ways:

- From the application main menu icon : by selecting the appropriate item from the **Message center** tab.

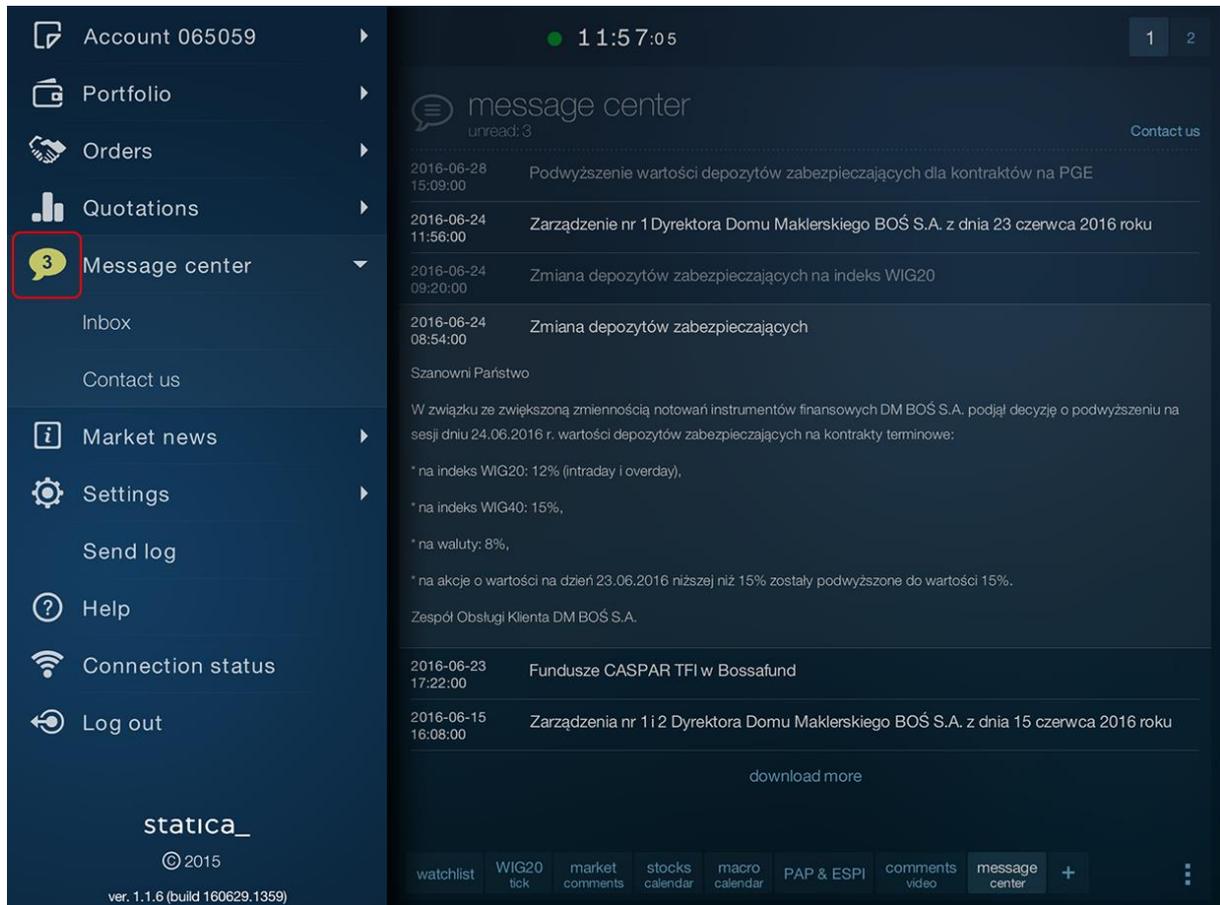

- By adding a new tab: select **Message center** in the screen for adding a new tab.

13.1. Inbox

Message center - **Inbox** is used to receive messages sent by broker.

The new message is indicated in the main menu by the appearance of a yellow balloon with information about the number of new messages to read.

When you open the inbox window, the list of **new messages** is retrieved automatically, but you can also retrieve historical messages by using the **download more** button at the bottom of the list. The screen header also includes information about the number of unread messages. Unread messages are marked in the list by highlighting the font.

The complete message text is available when you expand the message line, i.e. after tapping the selected item in the list. You can collapse the contents of the open message in the same way:

The screenshot displays a mobile application interface with a dark theme. At the top, there is a status bar with a signal strength indicator, the time 11:56:57, and a battery level indicator. Below the status bar, the interface is divided into two main sections.

Message Center (Left Panel):

- Header: "message center" with a "unread: 3" indicator and a "Contact us" link.
- Message List:
 - 2016-06-28 15:09:00: Podwyższenie wartości depozytów zabezpieczających dla kontraktów na PGE

13.2. Contact with broker

The application also enables to send a message to broker.

The option is available from the application main menu  icon, the Message center tab or from the Inbox window, using a Contact us link.

The screenshot shows the application's main interface. On the left, a dark sidebar contains a list of menu items: Account 065059, Portfolio, Orders, Quotations, Message center (expanded to show Inbox and Contact us), Market news, Settings, Send log, Help, Connection status, and Log out. The 'Contact us' item is highlighted with a red rectangular border. The main content area displays a table of market data for various securities. At the top of the main area, there is a green status indicator and a clock showing 11:57:56. The table has the following columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The data rows include WIG20, ETFW20L, BACD, CDPROJEKT, GROCLIN, KOPEX, MIDAS, WASKO, and ZETKAMA. At the bottom of the screen, there is a navigation bar with buttons for watchlist, WIG20 tick, market comments, stocks calendar, macro calendar, PAP & ESPI, and comments video, along with a plus sign and a vertical ellipsis.

14. Notifications

14.1. Internal notifications

The application displays notifications about significant events, which include:

- Closing the deal
- Replenishing/debiting the account
- Consideration of the request
- New message received to the Inbox
- New welcome message (Inbox)

In order for the notification to be displayed, the application must be enabled.

Notification icon appears at the right edge of the application window.

Notifications of various types are placed in sequence one under the other.

Two notifications of different types

The screenshot displays the STATICA mobile application interface. The top section shows a market quote table with columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The table lists several securities including WIG20, ETFW20L, 06MAGNA, 08OCTAVA, and ASSECOPOL. Below the table, a detailed view for the BOS stock is shown, including its last price (11.50), change (0.88%), volume (1), and turnover (54 065.00). A candlestick chart is visible for BOS, along with buy and sell volume indicators (146 and 309 respectively). The right side of the screen shows a 'Portfolio' overview for account 077311 Derivates, listing three accounts: 077309 Cash (9.25), 077311 Derivates (0.00), and 910212 Forex (0.00). The bottom navigation bar includes options like watchlist, WIG20 tick, market comments, stocks calendar, macro calendar, PAP & ESPI, comments video, portfolio transfers, orders overview, and BOS details.

Notifications of the same type (e.g. trades) are grouped. If there are more than 1, the information on the number is displayed to the left of the icon.

Notification example – execution of one trade

The screenshot displays a mobile trading application interface. The top status bar shows the time as 12:56:41. The main area is a table of securities with columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The 'Orders' panel on the right shows the account '077309 Cash' and lists active orders for '08OCTAVA'.

Navigation bar includes: watchlist, WIG20 tick, market comments, stocks calendar, macro calendar, PAP & ESPI, comments video, portfolio securities, orders overview, BOS details.

Notification example – execution of two trades

The screenshot displays a mobile trading application interface. At the top, there is a navigation bar with a menu icon on the left, a clock showing 12:58:16 in the center, and a notification badge with the number 2 on the right. Below the navigation bar is a table of market quotes for various securities. The table has columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The securities listed include WIG20, ETFW20L, 06MAGNA, 08OCTAVA, ASSECOPOL, BOS, CDPROJEKT, GROCLIN, GRUPAAZOTY, and KOPEX. The BOS security is highlighted with a detailed view below it, showing its last price at 11.50, a change of 0.88%, and a volume of 1. A candlestick chart is visible for BOS, and a summary box shows a sell order (volume 146) at 11.36 and a buy order (volume 309) at 11.50. On the right side of the screen, there is an 'Orders' panel for the account '077309 Cash'. It includes buttons for 'overview', 'viewer', and 'history', and tabs for 'active' and 'archive'. The active orders table shows two orders for 08OCTAVA, both with a status of 'active', a B/S of 'B', a quantity fulfilled of 2 and 1 respectively, and a limit of 1.17. At the bottom, there is a navigation bar with buttons for 'watchlist', 'WIG20 tick', 'market comments', 'stocks calendar', 'macro calendar', 'PAP & ESPI', 'comments video', 'portfolio securities', 'orders overview', and 'BOS details'.

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size

Click on the icon that appears to view the details of the notification. This will extend the notifications tab and show its contents.

The screenshot displays a mobile trading application interface. The top bar shows a hamburger menu icon on the left, a green status indicator and the time '13:00:54' in the center, and a page indicator '1 2' on the right. The main content area is divided into two sections. The upper section is a table of market quotes with columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The lower section provides a detailed view for the 'BOS' security, including its last price (11.50), change (0.88%), volume (1), and turnover (54 065.00). Below this is a candlestick chart and a split view showing 'Sell' volume (146) at 11.36 pln and 'Buy' volume (309) at 11.50 pln. The right-hand side of the screen features a notification panel with two alerts: 'Order completed ASSECOPOL' and 'Account debit 077309 Cash'. Below the notifications are icons for 'statement', 'securities', 'credits', and 'transfers', followed by a 'Select the debited account:' section with a table listing accounts owned by 'GRZEGORZ KMITA'. At the bottom, there are navigation tabs for 'watchlist', 'WIG20 tick', 'market comments', 'stocks calendar', 'macro calendar', 'PAP & ESPI', 'comments video', 'portfolio transfers', 'orders overview', and 'BOS details'.

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1750.29	-0.34%	13:00:45	267.13M	-	1748.82	1751.64	-
ETFW20L	204.35	0.42%	12:53:17	8.15K	65	203.50	204.26	2 500
06MAGNA	-	-	-	-	1193	1.83	1.97	258
08OCTAVA	[1.17]	8.33%	12:56:59	-	3	1.17	1.17	4 000
ASSECOPOL	52.28	1.67%	12:56:35	2.29M	363	52.27	52.48	209

Account	Owner	Funds (pln)
077309 Cash	GRZEGORZ KMITA	9.25
077311 Derivates	GRZEGORZ KMITA	0.00
910212 Forex	GRZEGORZ KMITA	0.00

If the number of notifications of the same type is greater than one, the contents will overlap. To view the next notification in a group, you must close the current notification, using the 'x' icon.

You can also close the entire group of messages (without having to browse all of them) at any time by dragging the notification tab towards the left edge of the screen.

Notification contents – first of two

The screenshot displays a mobile trading application interface. At the top, there is a notification bar with a green dot and the time 12:58:24. Below this is a table of market quotes for various securities. The table has columns for Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The securities listed include WIG20, ETFW20L, 06MAGNA, 08OCTAVA, ASSECOPOL, CDPROJEKT, GROCLIN, GRUPAAZOTY, and KOPEX. A detailed view for BOS is shown below the table, including its last price (11.50), change (0.88%), volume (1), and turnover (54 065.00). A candlestick chart and order book are also visible for BOS. On the right side, there is a notification for 'Order completed BOS' with a close icon. Below the notification is a dropdown menu for the account (077309 Cash) and buttons for overview, viewer, and history. At the bottom, there are navigation tabs for watchlist, market, stocks, macro, PAP & ESPI, comments, portfolio, orders, and BOS details.

14.2. External notifications

Broker may also send external notifications to the user. Such a notification will be shown in the form of the system push message.

Push notifications are displayed only when the application is not running.

Clicking on the push message will open the application and switch to the screen associated with the message.

15. Alerts and Statica Cloud

Alerts are notifications indicating the occurrence of a user-defined event.

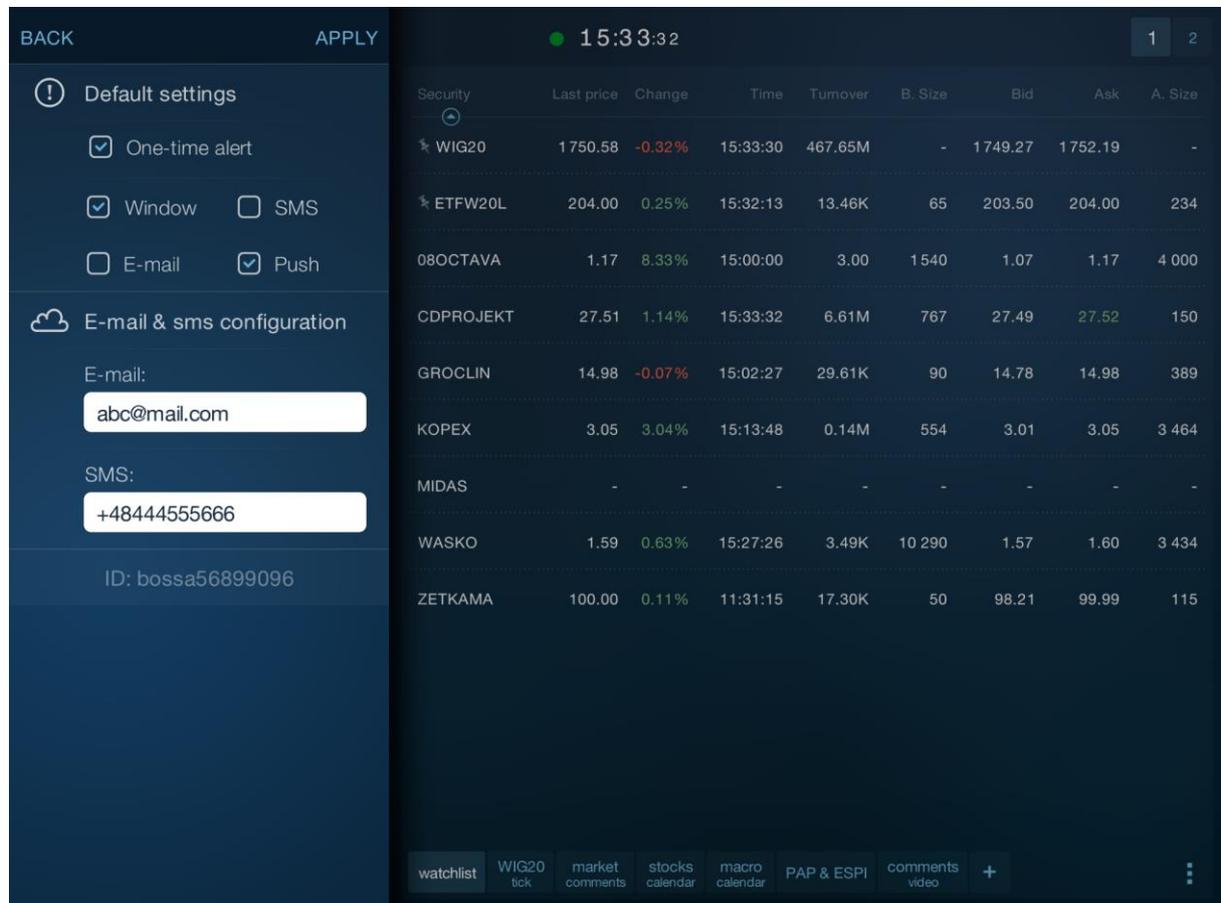

Alerts defined in the program are stored in the Statica Cloud where they are monitored until they are removed. After defining an alert, the application does not have to be running.

You can select several channels through which you will be notified if an alert occurs. For all channels except notifications in the application, the user receives information about an alert even though the program is not running (push, e-mail, text message).

15.1. General alert settings

For alerts to function properly, you have to set them up in advance.

To do this, select Settings/Alerts from the main menu of the application.

“Default settings” group enables to define the initial settings for each new alert definition. You can easily change these settings each time you create a new alert.

The options to be included in this group will be enabled in the new alert definition dialog.

For explanation of these options, see “Define a new alert” [link].

“Setting up e-mail and text message” group enables to configure Statika Cloud so that the application users receive notifications to their e-mail addresses and cell phones.

If you define alerts incoming by e-mail, specify the destination e-mail address.

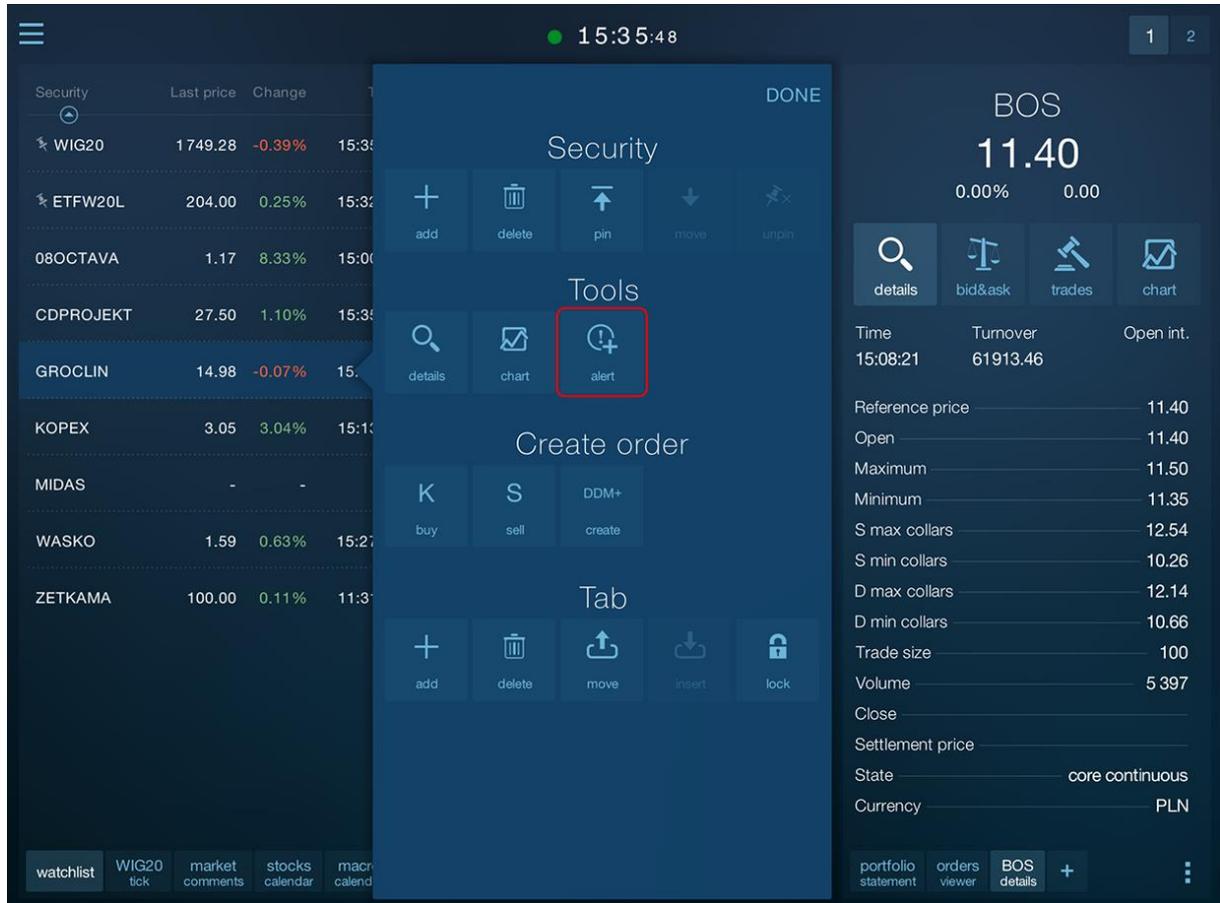

If you define alerts incoming in text messages, specify the destination mobile phone number (usually the one on which the application is running).

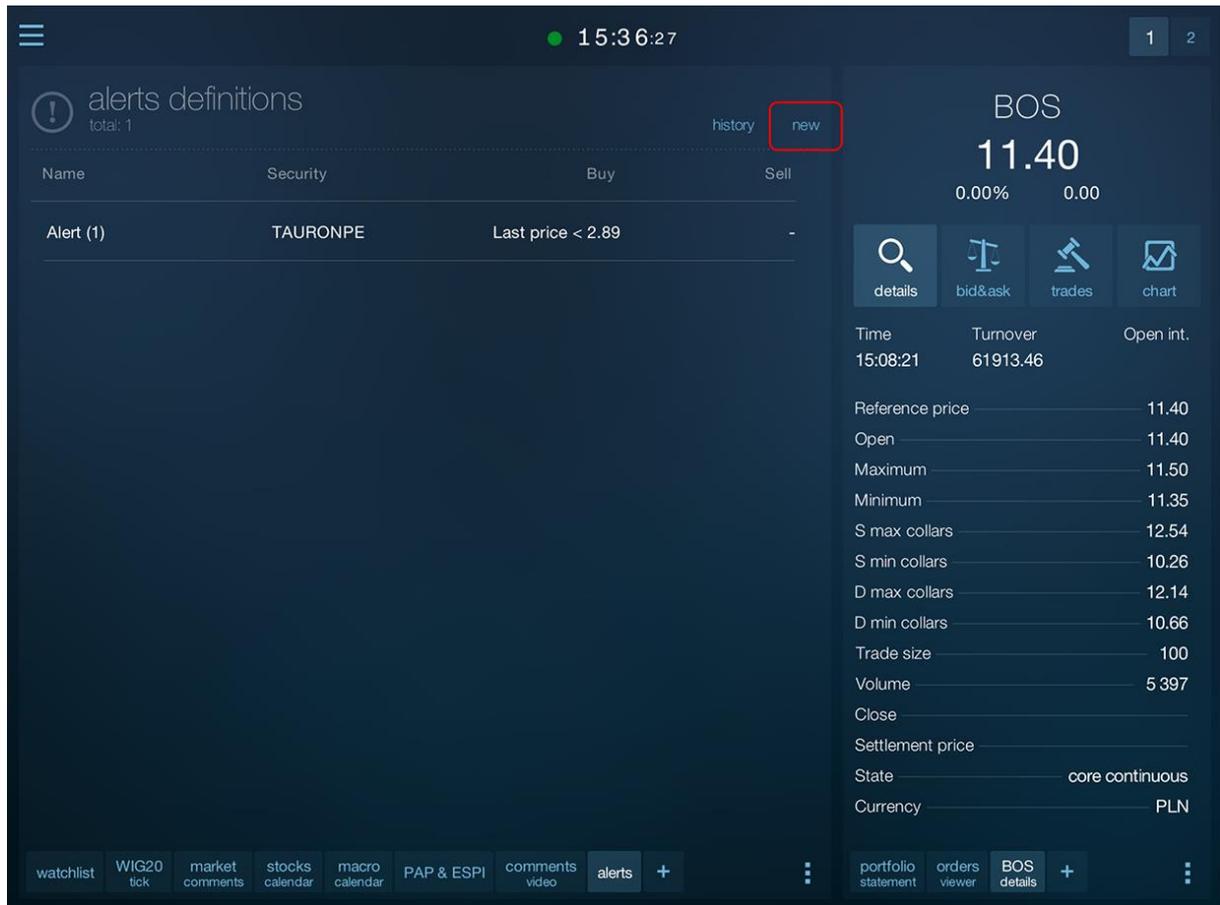

Accept the settings using the SAVE button.

If you change or provide your e-mail address or phone number, you will also be asked to confirm the rights to the channel by clicking on the link in the e-mail sent by Statica Cloud or (in the case of a phone number) by entering the code sent to us in a text message complete the setting procedure.

15.2. Defining a new alert

To add the alert, select the appropriate command from the table's pop-up menu or select the "new" button from the "alerts" tab (Alert Manager).

Creating a new alert definition involves defining the situation on which the user wants to be informed and the channels through which this information will be sent when the situation occurs.

The alert definition dialog is used for this.

This window is a wizard consisting of four screens, between which you can navigate using “BACK” and “NEXT” buttons.

SAVE ALERT

The transition to more screens may not be possible if the user has not provided the required information on the previous screens. In particular, the transition to the parameters screen will not be possible if at least one alert page (buy or sell) is not activated and defined.

The alert page is defined correctly when the event type, operator, value, and the “active” button are selected.

For example, if you want to be notified when the price of the security selected on the first screen exceeds 1000, you should fill in the fields of the buy or sell page as follows (the difference between unilateral and bilateral alerts is described in the next chapters):

The screenshot shows a mobile application interface. On the left, a 'new alert' configuration screen is displayed for the security 'WIG20'. The configuration includes:

- Security:** WIG20
- Last price:** 1743.24
- Ask price:** 1741.90
- Bid price:** 1744.84
- Change:** -7.45
- % Change:** -0.43%
- Condition:** sell condition
- Type:** Last price
- Operator:** >
- Value:** 1000.00
- Active:** active

At the bottom of the configuration screen are 'BACK' and 'NEXT' buttons. On the right, a market data table is shown with the following columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, A. Size. The table lists various securities including WIG20, ETFW20L, 08OCTAVA, CDPROJEKT, GROCLIN, KOPEX, MIDAS, TAURONPE, WASKO, and ZETKAMA.

15.2.1. Event types

The program provides many types of events that trigger alerts.

Last price - security rate.

Bid price - the best bid price.

Ask price - the best ask price.

Point change - change the rate of the security (in points) in relation to the reference rate.

|Point change| - absolute value of the change in the instrument rate (in points) in relation to the instrument rate. The absolute value is independent of the direction of change.

% change - change the rate of the security (in percent) in relation to the reference rate.

|% change| - absolute value of the change in the instrument rate (in percent) in relation to the instrument rate. The absolute value is independent of the direction of change.

Trade size - the volume of the last trade.

Turnover - turnover value of the selected security (during the current session).

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1742.07	-0.49%	12:13:30	153.96M	-	1740.48	1743.47	-
ETFW20L	203.60	0.29%	12:03:54	10.17K	2 500	202.06	203.42	2 500

WASKO	1.59	0.63%	11:30:31	6.35K	345	1.58	1.59	2 632
ZETKAMA	99.89	1.71%	10:48:00	16.08K	195	98.50	99.89	98

15.2.2. One-time alerts

A one-time alert is removed when the condition defined on its buy or sell page is satisfied. Such an alert is generated only once.

15.2.3. Multiple alerts

Multiple alert will be generated and will continue to be monitored in the Statica Cloud when the condition specified in the definition is satisfied. After satisfying the appropriate conditions, the alert may be generated multiple times.

Multiple alert is never removed automatically.

Details of the multiple alert behavior depend on whether it is a single-side or two-side alert as described in the following help paragraphs.

15.2.4. Single-side alerts

Single-side alert is the one that has only one side defined. It does not matter whether it is a buy or sell side.

When the single-side alert has the “one-time alert” option selected, it will be removed after it is generated.

Otherwise (multiple alert), Statica Cloud begins to monitor the alert for the condition opposite to the defined one when the condition specified in the definition is satisfied and a notification is generated.

After reaching the opposite condition, the alert will not be generated but will immediately return to monitoring the condition defined by the user. After it is satisfied, it will be generated again.

For example, for a multiple single-side alert, which should be generated when Rate>100, the alert will be generated as shown below for the trades in the example.

Rate	Notification
99	
100	
101	
102	
100	
99	
101	
101	
100	
102	
103	

Please note that <= 100 is the condition opposite to >100.

15.2.5. Two-side alerts

Two-side alert is the one which has both buy and sell side defined.

When the two-side alert has the “one-time alert” option selected, it will be removed after it is generated. It does not matter whether it is generated as a result of an event defined on the buy or sell side.

When the two-side alert is a multiple alert, Statica Cloud begins to monitor the alert for the condition opposite to the defined one (or the buy condition in the case of the sell alert, or sell in the case of the buy alert) when the condition specified in one side of the alert is satisfied and a notification is generated.

Once the opposite condition is met, the notification is generated and the alert side changes again.

Therefore, the two-side multiple alert is generated alternately: once for the buy side, once for the sell side.

15.2.5.1. Starting side

By default, when the two-side multiple alert is triggered, Statica Cloud initially monitors both defined conditions: buy and sell. As described earlier, the alert will be generated when either of these conditions are met, then only one side will be monitored - the opposite to the one for which the condition was recently met.

You can change the initial behavior of the two-side multiple alert in such a way that the monitoring of the alert corresponded to, for example, the status of owning the security.

If you have a security monitored, you may not be interested in a buy alert, but in the sell alert. You want to receive a buy alert only when the sell alert occurs and funds are released.

The “Start from the side” parameter located on the last tab of the alerts wizard is used for this purpose.

The screenshot shows a mobile application interface. On the left, a 'new alert' dialog is open, allowing the user to configure an alert. The dialog includes a 'CANCEL' button at the top, a 'new alert' title with an icon, and a text input field for the 'Alert name' containing 'Alert Wig20'. Below this, there is a 'Start from side:' section with three options: 'BOTH', 'BUY', and 'SELL'. The 'SELL' option is currently selected. At the bottom of the dialog, there are two checkboxes: 'e-mail' and 'push', both of which are checked. The 'BACK' and 'SAVE ALERT' buttons are at the very bottom of the dialog.

On the right, a market quotes table is displayed. The table has the following columns: Security, Last price, Change, Time, Turnover, B. Size, Bid, Ask, and A. Size. The data rows are as follows:

Security	Last price	Change	Time	Turnover	B. Size	Bid	Ask	A. Size
WIG20	1740.99	-0.55%	12:18:00	155.86M	-	1740.10	1742.85	-
ETFW20L	203.60	0.29%	12:03:54	10.17K	2 500	202.01	203.32	2 500
08OCTAVA	-	-	-	-	1560	1.07	1.18	3 000
CDPROJEKT	27.59	0.69%	12:10:47	0.97M	563	27.59	27.64	732
GROCLIN	14.80	-1.20%	11:19:28	9.99K	52	14.85	14.89	82
KOPEX	3.01	0.67%	12:00:49	39.34K	1293	2.97	3.01	33
MIDAS	-	-	-	-	-	-	-	-
TAURONPE	2.88	1.41%	12:16:18	3.81M	31 216	2.88	2.89	34 020
WASKO	1.59	0.63%	11:30:31	6.35K	345	1.58	1.59	2 632
ZETKAMA	99.89	1.71%	10:48:00	16.08K	195	98.50	99.89	98

At the bottom of the screen, there is a navigation bar with buttons for 'watchlist', 'WIG20 tick', 'alerts', and a '+' icon. The 'WIG20 tick' button is currently active.

In this example, selecting “Sell” will correspond to the intention of investor – initially, the alert will not be monitored simultaneously for Buy and Sell conditions, but only for the Sell condition. The Buy side will be skipped until generating the Sell alert.

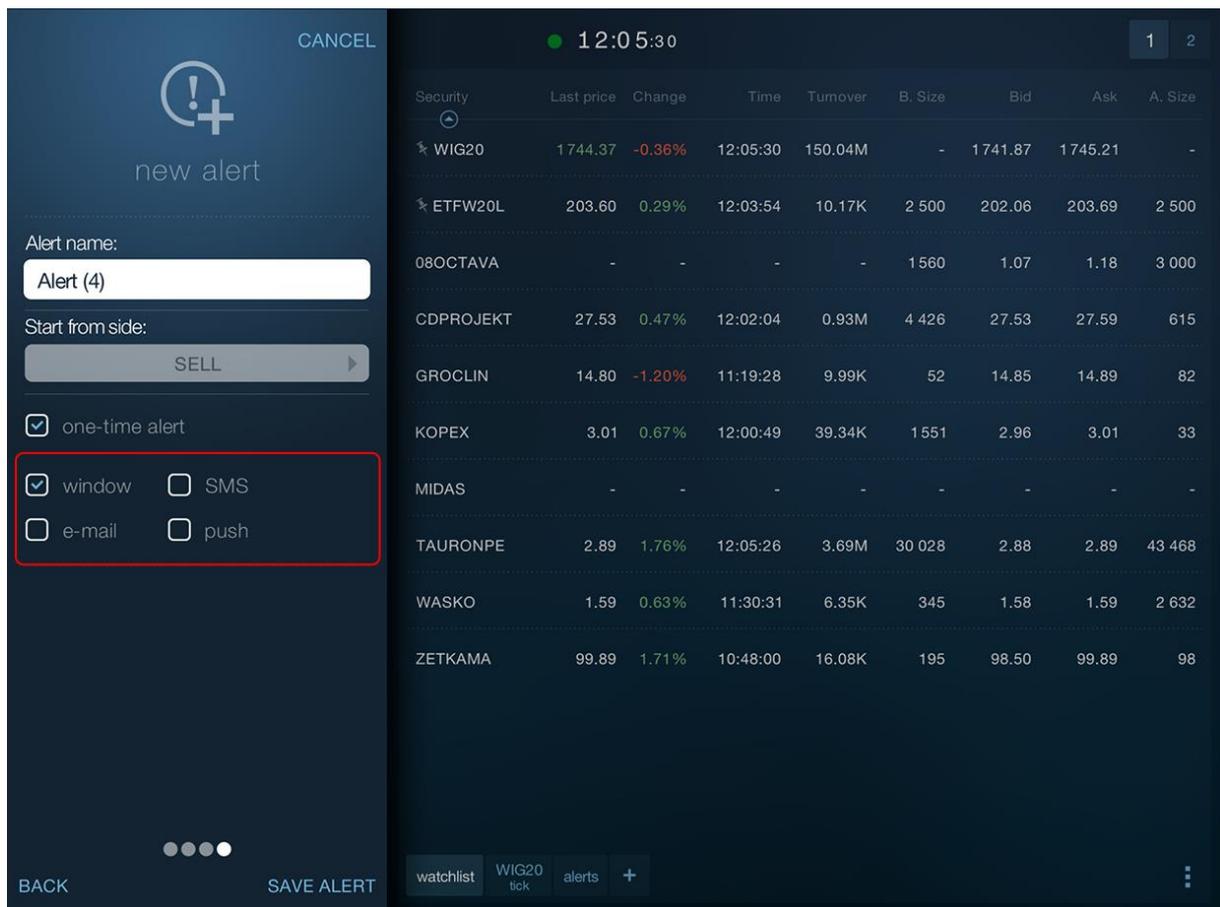

15.2.6. Notification channels

The application provides a number of channels through which the user is informed when an alert occurs.

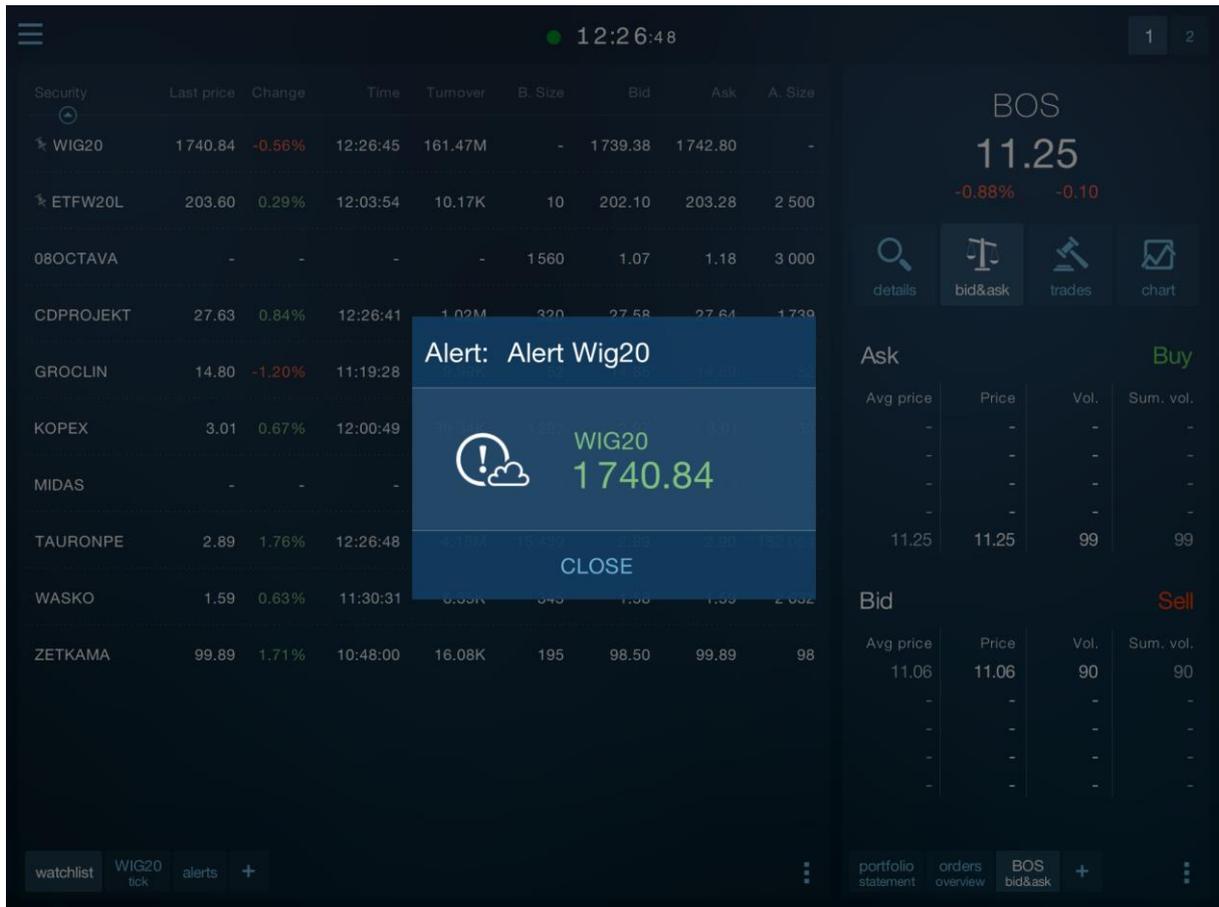

You can define different channels for different notifications depending on the frequency and severity of the alert.

One alert can inform the user of the occurrence of the event via multiple channels simultaneously.

You can select the channel on the last tab of the new alert wizard.

window - the notification will be displayed in the Mobile Quotes program in the pop-up dialog. This type of notification will be provided only at runtime.

e-mail - the notification will be provided via e-mail. This type of notification will be provided regardless of whether the application is running.

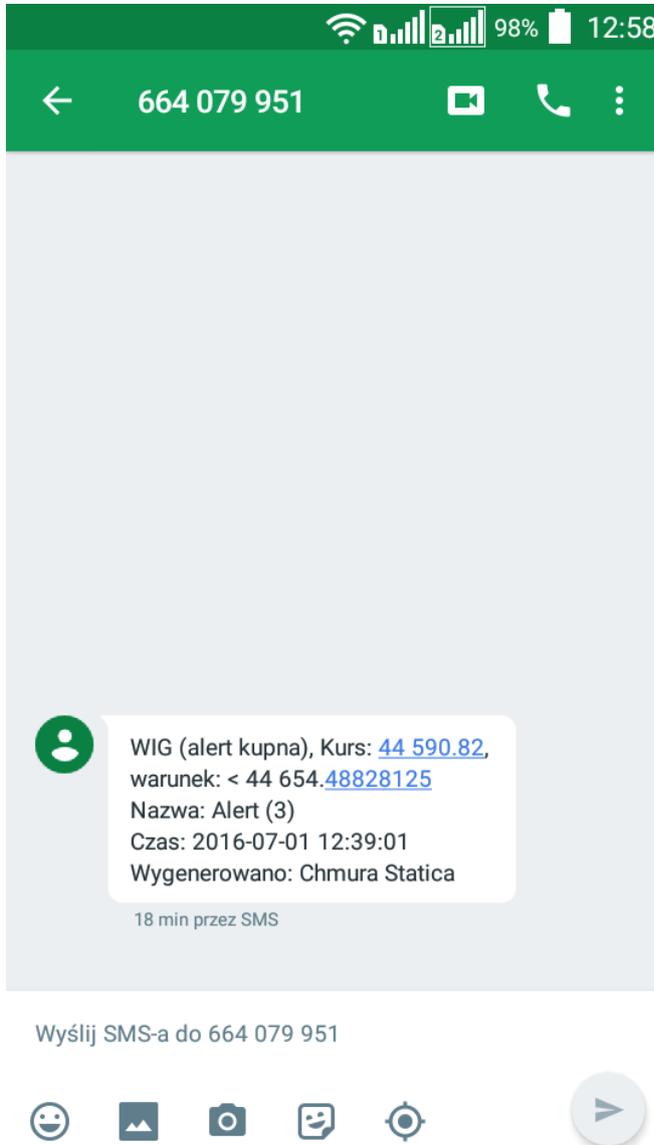

▼  **WIG (alert sprzedaży), Kurs: 44 624.36, warunek: < 50 000**
Od **Statica**  Data **Dzisiaj 12:52**

Wygenerowano: Chmura Statica

sms - the notification will be provided in the form of a text message sent to the phone number defined in the general program settings. This type of notification will be provided regardless of whether the application is running.

Note! Text message notifications are subject to the limitations in the user subscription. They may not be available in specific cases.

push - the notification will be delivered to the phone as a push message. This type of notification will be delivered only when the application is closed.

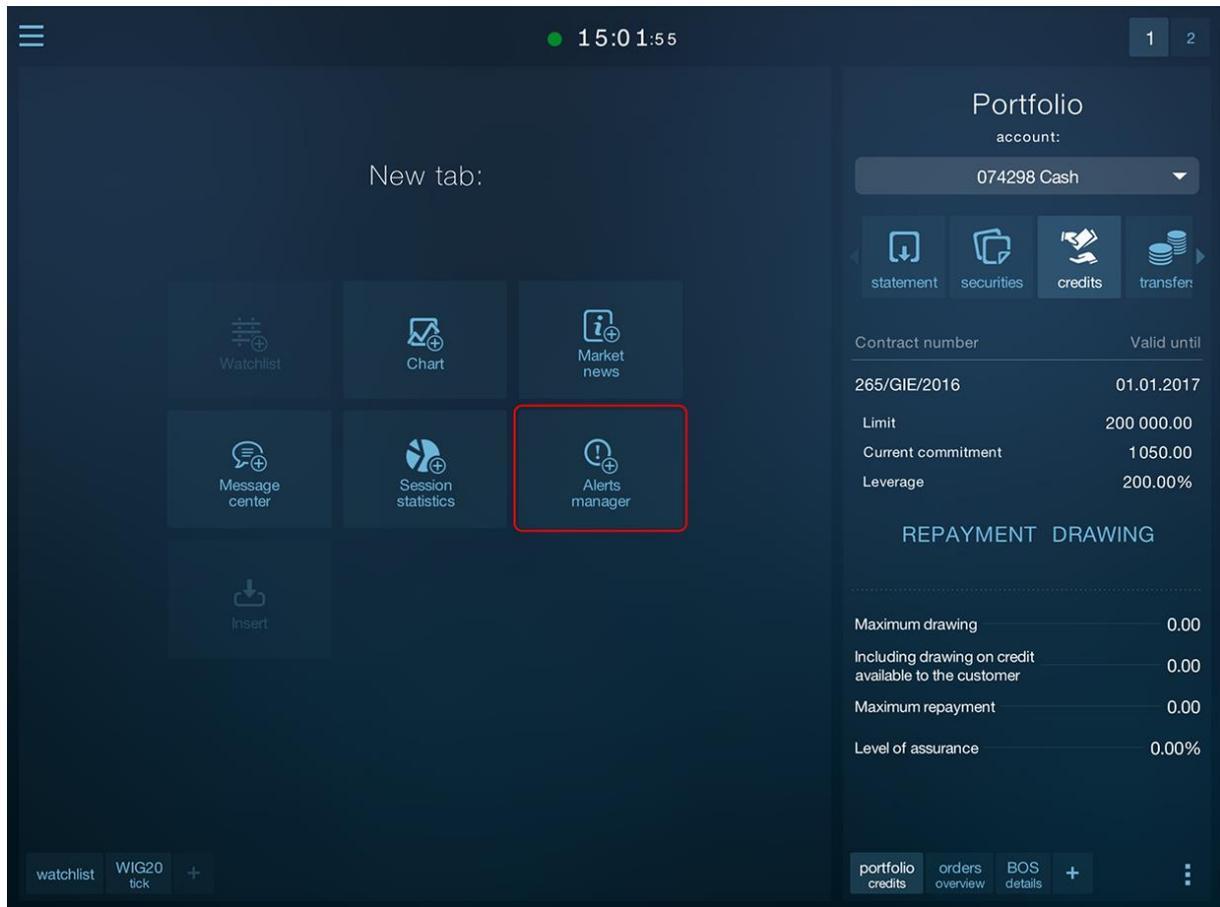

Below is a table with the notification channels and their activity depending on whether Mobile Quotes is running or not.

Channel	Application running	
	YES	NO
dialog	+	-
push	-	+
e-mail	+	+
sms	+	+

15.2. Alert manager

Alert manager is a tab with the preview of defined and generated alerts.

Alert manager has two internal tabs: **defined** alerts and the **history** of alerts.

You can switch between the two tabs via the contextual button “definitions/history”.

You can create a new alert using the "new" button from the level of this tool regardless of the currently displayed internal tab.

15.2.1. Defined alerts

The defined alerts tab shows all user's active alerts.

The alert row can be expanded by clicking on it which enables to remove and edit the row.

The screenshot shows a mobile trading application interface. At the top, there is a navigation bar with a hamburger menu, a green status indicator, the time 12:48:48, and page numbers 1 and 2. Below the navigation bar, the main content is split into two panels.

The left panel is titled "alerts definitions" with a sub-header "total: 3" and tabs for "history" and "new". It contains a table with the following data:

Name	Security	Buy	Sell
Alert Kgh	KGHM	Last price < 66.47	Last price > 66.47
Alert Wig	WIG	Last price > 44 654.49	Price < 40 000.00
Alert Wig20	WIG20	Last price < 1738.55	Last price > 1738.55

The "Alert Wig20" row is highlighted with a red border and contains "EDIT" and "DELETE" buttons below it.

The right panel displays market data for "BOS" with a price of "11.25", a change of "-0.88%", and a volume of "-0.10". Below this are navigation icons for "details", "bid&ask", "trades", and "chart".

The "Ask" section shows a table with columns "Avg price", "Price", "Vol.", and "Sum. vol.":

Avg price	Price	Vol.	Sum. vol.
-	-	-	-
-	-	-	-
-	-	-	-
11.25	11.25	99	99

The "Bid" section shows a similar table:

Avg price	Price	Vol.	Sum. vol.
11.06	11.06	90	90
-	-	-	-
-	-	-	-
-	-	-	-

At the bottom of the screen, there are navigation tabs for "watchlist", "WIG20 tick", "alerts", and "+". On the right side, there are tabs for "portfolio statement", "orders overview", "BOS bid&ask", and "+".

Some alert definitions can be grayed-out. These are the alerts which have been automatically deleted by Statica Cloud (the alerts which have already been generated once). They are not active, but you can easily repeat them using the “Retry” button.

The screenshot displays the 'alerts definitions' screen in the Statica mobile app. The top status bar shows the time 12:52:06 and a signal strength indicator. The main header includes a menu icon, the title 'alerts definitions' with a warning icon and 'total: 3', and links for 'history' and 'new'. Below this is a table of alert definitions:

Name	Security	Buy	Sell
Alert Kgh	KGHM	Last price < 66.47	Last price > 66.47
Alert Wig	WIG	Last price > 44 654.49	Price < 50 000.00
Alert Wig20	WIG20	Last price < 1738.55	Last price > 1738.55

Below the table are two buttons: 'RETRY' and 'DELETE'. The right-hand side of the screen shows market data for 'BOS' with a current price of 11.25, a change of -0.88% (-0.10). Navigation icons for 'details', 'bid&ask', 'trades', and 'chart' are visible. Below these are 'Ask' and 'Bid' tables:

Ask				Buy
Avg price	Price	Vol.	Sum. vol.	
-	-	-	-	
-	-	-	-	
-	-	-	-	
-	-	-	-	
11.25	11.25	99	99	

Bid				Sell
Avg price	Price	Vol.	Sum. vol.	
11.06	11.06	90	90	
-	-	-	-	
-	-	-	-	
-	-	-	-	
-	-	-	-	

The bottom navigation bar includes 'watchlist', 'WIG20 tick', 'alerts +', 'portfolio statement', 'orders overview', 'BOS bid&ask +', and a vertical menu icon.

15.2.2. History of alerts

The History of alerts tab shows the list of alerts generated recently.

Tapping the row with the generated alert changes to the definitions tab and automatically expands the alert line that generated the selected notification.
